

COMMUNITY HEALTH NEEDS ASSESSMENT

2021

Davis County, Iowa

Community Health Needs Assessment

DAVIS COUNTY, IOWA

EXECUTIVE SUMMARY

2021 Community Health Needs Assessment

Community Health Needs Assessments are ongoing processes that systematically evaluate the health needs of the community to improve the health of the population. After the passage of the Patient and Protection and Affordable Care Act of 2012, 501 (c)(3) hospital organizations were given four new tax requirements to begin in tax years after March 23rd, 2012 (Stall, 2012). These new tax requirements were birthed from the growing concern over non-profit hospitals not providing sufficient community benefit as required by their tax-exempt status (Principe, K., Adams, E. K., Maynard, J., & Becker, E. R, 2012). The four tax requirements included, the implementation of written financial assistance policies, the limitation of charges for emergency or necessary care, adherence to new billing and collection restrictions, and the fourth requirement mandated that non-profit hospitals perform Community Health Needs Assessments (CHNA) (Stall, 2012).

In the past Community Health Needs Assessments, the benefits for both the local health, health department and the community were stated in the following methods:

1. Identify key community health concerns, perceptions, and resources, while creating opportunity for collaboration in delivery of services.
2. Find a common understanding of and analyze community health needs, then prioritize with implementation strategies.
3. Provides guidance to the hospital and local health departments for how they can align their services and community benefit programs to best meet needs.
4. Focus organization's efforts for improvement and structure for addressing social determinates of health in building a relationship between and among stakeholders. All stakeholders can then contribute to improving the health of the community.
5. Provides rationale for current and potential funders to support efforts to improve the health of the community.

Community Health Needs Assessment Strengths

Davis County Hospital and Public Health Department Primary Service Area Community Health Strengths
1. Community Participants are generally satisfied with the quality and services from Davis County Hospital and Public Health
2. Participants supported both inpatient and outpatient services from Davis County Hospital and Public Health
3. Improvements over the last 3 years in the areas of Senior Care Options, coordination between provider and agencies, access to specialty services, transportation, and rural health care delivery and access.

Town Hall - Community Health Opportunities Identified

Town Hall Outcomes - Community Health Opportunities
1. Expand Childcare Options (Population Health, Internal and Community Services)
2. Aging/Dementia Support Group (Population Health, Internal and Community Services)
3. Alcohol/Substance Abuse Support Group (Population Health, Internal and Community Services)
4. Mental Health (Population Health, Internal and Community Services) ranking high for access, marketing/awareness of services, and training for providers
5. Chronic Disease management and services (Population Health, Internal and Community Services) ranking high Obesity and Diabetes, preventative services, and education

Community Health Needs Assessment Survey - General Feedback

The following were general feedback sections from the Community Health Needs Assessment Survey in which 84 community participants completed the survey either via paper or electronic formats. The details of the survey process can be found later in this report.

- The percent of Davis County survey participants who would rate the overall quality of care as either Very Good or Good is 78%, up 0.3% since 2018.
- Davis County survey participants are satisfied with the following hospital services: Ambulance Services/ ER services, Family Practice, Home Health, Hospice, Specialty Providers, and Outpatient Services. Participants are satisfied with the following community services: Chiropractor, Eye Doctor, Pharmacy, and School Nursing.
- Davis County survey participants are NOT satisfied or neutral with the following services: Child Care, Mental Health, Teen health, family planning and Nursing Home services (neutral).
- The percent of participants who have received healthcare services outside of the community over the past two years has decreased to 75% (from 79.6% in 2018). Of those that provided the type of service here are the services in which they traveled out of the community: Obstetrics, Primary Care, Dental, Surgery, Specialty (Cardiac, Urology, Orthopedics, Dermatology, Oncology, Neurology).
- Davis County participants believed there are opportunities for both health concerns and programs to combat the health concerns. The top perceptions of needs are listed in the following two tables as Results of Opportunities.

Community Health Needs Assessment Survey - Results of Opportunities

CHNA Survey – Needs for Health Concerns
1. Obesity (70%)
2. Diabetes (63%)
3. Substance Abuse (56%)
4. Mental Disorders (52%)
5. Heart Disease (45%)
6. Cancer (31%)
7. Respiratory Disease (26%)

CHNA Survey – Program Needs for Health
1. Mental Health Services (77%)
2. Child Care Services (64%)
3. Obesity Prevention Services (54%)
4. Aging (Dementia) Support Groups (46%)
5. Alcohol Use Support Groups (45%)
6. Teen Health Services (43%)

Iowa Health Rankings: Davis County Hospital & Clinics and Public Health

According to the 2021 Robert Wood Johnson County Health Rankings study, Davis County has the following comparisons. More details can be found in later sections of this report.

- **Demographics and Age:** Davis County has a population of 9,000 residents as of 2019, an increase of 1.02% since 2018. The county population consists of 17.7% at or over the ages of 65 years, an increase of 0.4% since 2018 and the state average is 17.5%. In the under 18 age group, Davis County has a population of 29.5%, an increase of 0.7% since 2018 and state average is 23.0%. The county is considered 100% rural.
- **Diversity:** Davis County has 1% of the population that is considered non-proficient in English as a first language. The county has approximately 1.7% Hispanic population, and 0.8% African-American, American Indian, and Asian combined. Females make up approximately 50.4% of the population.
- **Income:** Davis County median household income is \$57,200 (Iowa average of \$61,800) and unemployment is at 2.9%. Regarding the effects of income on the children in the county, 17% of the children live in poverty and 51% are eligible for free or reduced-price lunches (2018 – 39% were eligible).
- **Housing and Commutes:** The county is rated with 12% severe housing issues (Iowa overall at 12%, a decrease of 1% from 2018). For employment, 29% of the population have long commutes to work and 72% drive alone (Iowa is at 21% and 81% respectively).
- **Education:** The percent of high school graduation is at 98% and a strength in county rankings (Iowa 91%). For college education, Davis County has 60% of the population with some college (Iowa 70%).
- **Prenatal Care:** According to Iowa Health Fact Book, as 2018-2019, 167 mothers started Prenatal care in the first trimester, for a ranking of 90 out of the 99 counties in Iowa. The number of mothers that smoked during pregnancy was 26, for an Iowa rank of 87.
- **Primary Care and Hospital Services:** The ratio of population to primary care providers was slightly higher than 2018 report with 2,250 residents to 1 provider (Iowa ratio of 920:1. 2015 ratio was 2,172:1). Preventable Hospital stays were below the Iowa number, 2,598 and 3,536 respectively.
- **Insured:** The uninsured adult population rate in Davis County is 13%, slightly higher than the Iowa rate of 7%, higher than the 2018 report by 1%. The uninsured rate for children is 8%, higher than the Iowa rate of 3%.
- **Access:** Access to exercise opportunities is 49% (No change from 2018 and well below the Iowa rate of 83%) and food insecurity is at 9% (Iowa rate is 10%). Mammography screenings is at 41% (Iowa rate is 52%), and in 2019 – 35.4% of children at 2 years of age are up to date on complete series of vaccinations compared to 56% in 2018 and 42.7% in 2017 (source: Iowa Department of Public Health).
- **Health Conditions:**

- The “Frequent Mental Distress” rate for Davis County is 13%, with an Iowa rate of 11%. According to the CDC, 7.6% of Americans over the age of 12, had depression and living at or below the poverty level people were 2.5 times more likely to have depression (source: <https://www.cdc.gov/nchs/data/databriefs/db172.htm>).
- Diabetes prevalence is at a rate of 12% (Iowa’s rate 10%).
- All Cardiovascular Disease rate were 39.3 hospitalizations per 1000 Medicare Beneficiaries (Iowa best county is 24.6 in the 2016-2018 data). (source: <https://nccd.cdc.gov/DHDSPAtlas/reports.aspx?geographyType=county&state=IA&countyTAb#report>)
- Adult Obesity rates are at 31%, which is 1% lower than the 2018 rates (Iowa 34%).
- Adult smoking is 21%, four percent above the Iowa rate, and an increase of 3% since the 2018 report. CMS
- Physical inactivity rate is 27%, an increase of 1% since 2018, however 4% higher than Iowa’s rate. The Access to exercise opportunities is very low at 49%, versus the Iowa rate of 83%.
- The percent of alcohol impaired driving deaths in Davis County is 11%, considerably less than the Iowa percentage of 27%. Excessive drinking percentages were also below the Iowa rate, at 24% and 26% respectively.

METHODOLOGY

Scope and Purpose

The Federal Patient Protection and Affordable Care Act requires that each registered 501(c)3 hospital conduct a Community Health Needs Assessment (CHNA) at least once every three years, share the assessment results with the community, and adopt a strategy to meet the health needs of the community.

The IRS Notice 2011-52 can be found at the following link and were followed for the purposes of this process, assessment, and report. <https://www.irs.gov/charities-non-profits/community-health-needs-assessment-for-charitable-hospital-organizations-section-501r3>

Assessing Community Health Needs

To assess the needs of the community the hospital must identify the significant health needs, prioritize those health needs, and identify resources potentially available to address them. Health needs of a community include improvement or maintenance of health status across the community, parts, neighborhoods, or population with health disparities. These needs can include financial, access, illness prevention, nutrition or social, behavioral, environmental factors that influence health. Resources can include organization, facilities, and programs within the community.

Process to Complete a CHNA

The recommended requirements for the CHNA include the method of discovery, quality community needs, quantify needs, and complete data analysis and comprehensive needs assessment. Federal regulations state that the following process must be completed in order to complete a Community Health Needs Assessment (CHNA).

Community Health Needs Assessment

1. Define the community it serves (discovery)
2. Assess the health needs of that community (qualify community needs)
3. Solicit and take into account input from persons who represent board interest of the community, including those with special knowledge or expertise in public health (quantify needs)
4. Document the CHNA written report that is adopted for or by the hospital facility (complete analysis and comprehensive needs assessment)
5. Make the CHNA report widely available to the public.

Steps to Complete the CHNA

The following is the process steps with milestones was completed during the community health needs assessment development. This process and milestones follow closely with the recommendations from the American Hospital Association and are a detailed list of actions taken in the above process per the IRS requirements (Source: http://www.healthycommunities.org/Education/toolkit/index.shtml#.XC_37lxKg2x).

Steps in Process for CHNA including Timelines / Milestones

1. **Agreement and contracting** – discuss critical success factors for CHNA process (completed July 2021)
2. **Meeting with community leadership** – planning, methodology, and agreement of scope and services (Completed August 2021)
3. **Identify and engagement of key stakeholders** – define the community and methodology (Sept 2021)
4. **Create and process evaluation (survey/ assessment) methods** – work with organization to develop survey that reflects the community, needs, and priorities (Sept 2021)
5. **Collect and analyze the data** – including community health issues of past and future (Sept 2021)
6. **Document and communicate priorities** – work with organization to define the priorities and engagement of key stakeholders (October 2021)
7. **Plan improvement strategies** – work with organization for final report and distribution as needed (October 2021)
8. **Organization to implement improvement plans** – work with key stakeholders in community for best practice implementation and success (October 2021)
9. **Evaluate progress on the key priorities and strategic alignment** – reevaluate progress and continual planning for future needs (FY2022 to FY2024)

Model for Needs Assessment Process and Steps

Community Served / Profile Description

Davis County, Iowa, Community Profile

It was determined by the leadership of the Davis County, Iowa Community Health Needs Assessment, that those individuals that live or receive health services in Davis County, Iowa would be the overall (total) population for this process. A statistically significant sample size was achieved during the survey phase of the process and did represent both demographic, social/economic, religious, and age differences. Efforts were made to ensure that there was a broad interest represented in each of the data collection and prioritization phases.

Community Health Needs Assessment

The population of Davis County, Iowa is 9000 residents as of 2019, an increase of 1.02% since 2018. The county is considered 100% rural, covering approximately 502 square miles. The population density is approximately 17.4 people per square mile (Iowa is 54.5 residents per square mile). (Source: <https://www.census.gov/quickfacts/fact/table/daviscountyiowa/HSG010217>)

The county population consists of 17.7% at or over the ages of 65 years, an increase of 0.4% since 2018 and the state average is 17.5%. In the under 18 age group, Davis County has a population of 29.5%, an increase of 0.7% since 2018 and state average is 23%.

The communities within Davis County are Bloomfield, Drakesville, Floris, Pulaski, and un-incorporated West Grove. Major highways include U.S. Highway 63, Iowa Highway 2 and Iowa Highway 202 (source: https://en.wikipedia.org/wiki/Davis_County,_Iowa). Major types of employment in Davis County are education, healthcare and social assistance (21%), retail trade (12.8%), manufacturing (14.4%), Agriculture, forestry, fishing & hunting, mining (11.2%) (source: http://www.city-data.com/county/Davis_County-IA.html).

For more information about Davis County Hospital & Clinics, please visit (source:) www.DCHC.org or www.DCHC.org/about-us/.

History of Davis County Hospital & Clinics: History about Davis County Hospital can be found at www.DCHC.org/about-us/

Network Affiliation: Davis County Hospital & Clinics is in a management affiliation with Mercy Health Network. To find out more details about the Mercy Health Network affiliation please go to www.DCHC.org/about-us/our-vision/

Services: Davis County Hospital & Clinics offers a variety of inpatient (acute/skilled) and outpatient services to the county and surrounding areas. A comprehensive list of services can be found at wwwDCHC.org/services/. The following is a list of services provided, but not limited to at Davis County Hospital & Clinics:

- Allergy and Immunology
- Allergy and Pulmonary
- Asthma
- Cardiac Rehabilitation
- Dermatology
- Ear, Nose and Throat
- Emergency Department
- Emergency Medical Services (Ambulance)
- Family Medicine
- Hospice and Palliative Medicine
- Internal Medicine
- Inpatient services/Skilled Care/Swing-bed
- Laboratory
- Medical Imaging (Radiology)
- Urology
- Neuromusculoskeletal Medicine
- Pre-& Post Natal Care
- Orthopedics
- Pediatrics/Well-Child Clinic
- Physical and Speech Therapy
- Podiatry
- Public Health
- Pulmonology/ Pulmonary Rehab
- Respiratory
- Rheumatology
- Senior Life Solutions
- Sleep Testing
- Women's Health

Davis County Public Health (Health Department) Profile

Address: 509 North Madison Street, Bloomfield, Iowa 52537

Director: Lynn Fellingner, RN

Services: Davis County Public Health is a partnering organization with Davis County Hospital & Clinics. More information can be found at: www.DCHC.org/services/public-health. Services cover the entire county and are listed below, but not limited to the following:

- Blood Pressure clinics
- Blood draws & specimen collection
- Dressing Changes

- Fall risk assessment
- Home care aid service and Homemaker services
- Immunization Clinics and Child Immunization
- Injections
- Medication Management
- Newborn baby visits
- Pain Management
- Patient Education
- Referral to community services
- Skilled Nursing visit by RN
- Skin assessment

Community Health Needs Assessment Process

The following sections represent the process of the Community Health Needs Assessment completed with Davis County Community Leadership and Key Stakeholders. These process steps include creating purpose, defining scope and community, engagement of key leadership, survey assessment, analysis, prioritization, reporting of outcomes, and action planning.

The IRS requirements for a CHNA are a four-phase the process was represented earlier in the document (see Methodology – Scope and Purpose), and further explored in the following sections.

Project Planning (CHNA Steps 1 – 3)

On, July 6, 2021 leadership from Davis County Hospital & Clinics and Davis County Public Health met and discussed CHNA process, critical success factors, timelines, and who would be key stake holders. Shortly following this initial meeting, these parties met in early August 2021 for planning for the IRS compliant CHNA, further methodology, distribution, survey needs, agreement, and scope of services. Key leadership and stakeholders were also discussed, and a list of involvement was compiled in meeting minutes. It was elected at these meetings to move forward with the CHNA process and initial survey distribution would happen at the August 6, 2021 and survey conclusion on or about September 6, 2021.

Create the assessment, survey, and evaluation process (CHNA Steps 4)

Starting on July 6, 2021, a community health needs assessment survey was designed and created. The leadership from Davis County Hospital & Clinics and Public Health were allowed to review the survey as it was developed. The survey questions included similar or prior questions to the 2012, 2015, and 2018 surveys for comparison purposes (updates to language and current patient centered care standards were completed in questions as needed). New questions also address the actions or priorities from 2018 to 2021 completed in the communities but Davis County Hospital & Clinics and Public Health, along with the partnering community entities.

Collect the Data (CHNA Steps 5)

Collection of survey data comprised of many forms and methods. Survey links, fliers, and paper copies were sent to local businesses and employers. Surveys were randomly sent direct mail to over 100 residents of the communities and either electronic or paper (hard) copies were allowed to be submitted. Electronic links were sent multiple times in the local newspapers, provided through the Hospital website, and patients were encouraged to complete the survey before or after healthcare services. During the process, the leadership provided translation services (i.e. vision or language), electronic and paper copies, and a brief description of purpose to those who were taking the survey. No material or monetary incentives were provided when taking the survey.

COMMUNITY PRESS RELEASE

The following was a press release that was sent to the local newspaper entities and distributed for the general awareness of the survey being conducted.

**Davis County Hospital & Clinics and Davis County Public Health
Conducting Community Health Needs Assessment**

Bloomfield, IA – Davis County Hospital & Clinics and Davis County Public Health are working together to complete the 2022 Community Health Needs Assessment (CHNA).

Completing a Community Health Needs Assessment (CHNA) is a federal requirement for non-profit hospitals and must be completed at least every three years with input from the broader community, including public health. Data from this CHNA survey will help health care providers and community organizations improve the overall health and wellness of our community, and identify community needs, establish priorities for programs and services, and inform strategies to address gaps between critical needs and services.

All Davis County, Iowa residents and business leaders are encouraged to participate. Included in the 2022 CHNA surveys are questions dealing with community health regarding service delivery, fitness, nutrition, and access to care. All survey responses are anonymous and completing the survey takes less than 10 minutes.

If you would like to participate in the survey, please go to <https://forms.office.com/r/Gof224hncV>. You may also fill out the survey in paper form by contacting Davis County Hospital & Clinics at 641-664-7093. All surveys must be received by August 6th, 2021.

Thank you in advance for your help in completing this confidential, important survey.

If you have any questions about the survey or survey process, please call | Devyn Pittlick at Davis County Hospital & Clinics, 641-664-2145.

###

Analyze the Data (CHNA Steps 5 continued)

During and following the community survey process, data from external sources (secondary data) were being collected and analyzed. This included data from sources such as Robert Wood Johnson County Health Rankings, City Data, Iowa Hospital Association (IPOP data), Vital Statistics, etc. Survey data was considered primary data research and collected public health needs, perceptions, satisfaction with care and services for both public, private, and governmental agencies serving the Davis County area. This data can be found in the following charts in Data Details section with both the Iowa Hospital Association data (secondary), CHNA Survey Data (detailed primary) and a joint stakeholder meeting to identify focus areas.

Both the external, secondary data, and the initial analysis of the survey outcomes (primary data) was analyzed and presented to the stakeholder committee in October 2021. Top initial results were presented for the key stakeholders to continue to analyze, prioritize, and support with realistic objectives for Davis County.

Committee Research Process (Engage & Prioritize with Key Stakeholders)

Document and Define Priorities (CHNA Steps 6)

Community leadership should always be involved with the determination and prioritization of key actions within a community. Members will not only buy-in to the mission of the actions at a higher support level, they will often provide key resources that are needed for such action; which are vital to the actions success and often cannot happen with only hospital supporting resources.

Key community stakeholder groups were invited to a meeting on Thursday, October 21st. At this meeting a short informational presentation was given, facilitation of priorities from the survey and health ranking information was completed, and key findings were determined.

Community Strategy Formulation and Action Planning

Planning for Improvement Strategies (CHNA Steps 7 & 8)

To complete the final steps of the process, Davis County community leadership held meetings in October 2021. During this step of the Community Health Needs Assessment, Davis County community leadership gathered all primary and secondary data, completed a relevance and achievable check, and determined 5 goals (tactics) for their improvement of the community's health. SMART goals are specific, measurable, achievable, relevant, and time-oriented action plans for improvements in the community.

This step also include distribution of the CHNA final report. Starting January 1, 2022 Davis County Hospital & Clinics and Public Health department will be able to be distributed to the community. This report will be sent electronically to all participating and interested community partners for Davis County. The report will be provided, along with prior reports, on the Davis County Hospital & Clinics website (www.DCHC.org). Paper copies will be distributed to interested parties as requested to Davis County Hospital.

CHNA Implementation Plan Tactics - Davis County Hospital & Clinics PSA				
Initial CHNA Health Needs Tactics, Year 1 of 3 - Starting 1/1/2022 to 12/31/24				
	Identified Need	T	Current Resource Availability	Improvement Plan Options
1	Area of Need: Expand Childcare Options			
	Three Daycare Centers		At Capacity, two only able to take certain ages. Limitations on staff availability.	The hospital did financial cost analysis and determined that is unable to fund this initiative alone. Community support is needed for growth.
	In Home Daycares		Most not state certified and already at capacity	
	Bridges out of Poverty		City of Bloomfield looking into options for implementing program locally.	
	SJEDA Headstart		Offers pre school in county. Room for growth?	
	Before & After School Care		Limited options available within community.	
2	Area of Need: Aging (Dementia) Support Group			
	Respite Care Options / Adult Day Care		Available through Bloomfield Care Center	Ensure education for community members to know resources available. Keep Community Resource Guide current with available options.
	Educational Sessions		Senior Center currently offers	
3	Area of Need: Alcohol / Substance Abuse Assistance			
	Alcohol Abuse Support Groups		Methodist Church offers weekly AA meetings	Awareness of support group.

CHNA Implementation Plan Tactics - Davis County Hospital & Clinics PSA			
Initial CHNA Health Needs Tactics, Year 1 of 3 - Starting 1/1/2022 to 12/31/24			
Identified Need	T	Current Resource Availability	Improvement Plan Options
			Awareness of support group.
4			
Area of Need: Expand Mental Health Care Delivery			
Outpatient Mental Health Program		DCHC Senior Life Solutions program available	Continue with outpatient mental health program, and expand as able. Ensure providers are up-to-date on current resources. Assist with promotion
School Aged Support in Schools		School hired Social Emotional Support Counselors	
Pediatric Support		DCMA Dr. Graeff Behavioral Health	
Community Resource		Paula Gordy LISW - office within Main Street, and Optimae/First Resources	
Grief Support		Local Baptist Church offers grief support group (12 week)	
PTSD		Warriors with Wings, local chapter	
5			
Area of Need: Obesity Prevention / Weight Loss Assistance			
Obesity		Mutchler Center hours a issues. Extension office programs in community. Collaboration with dieticians at local facilities to offer education and healthy food choices.	Work to expand. Offer monthly resources on dieting / support groups. Promote trail system.
Diabetes		DCHC Dietitians (Working towards Diabetes Education Center).	Measures: Promote A1C monitoring / Screenings and Diabetes awareness Promote Diabetes prevention through diet, exercise and awareness as well as listed screenings.
Preventive Services		Community Garden WIC	Wellness programs and identify (HyVee) partners to share resources, connect with large employers in community, incentives to make life style changes, free activities at Drop In Center - yoga, and exercise activities, Bloomfield recovery and Wellness center, Develop Occupational Med services for local employers - screening flu shots, etc.
Education			Communicate programs, and insurance costs related, Extension office - growing own foods, grant funds available, Programming @ Bloomfield recovery/wellness center

PRIOR ASSESSMENT ACTION PLANS

During the years of 2016 to 2018, Davis County Hospital, Public Health and Community Coalition along with key community partners worked on improving seven (7) strategic tactics for the improvement of the community's health. For details of the 2016 to 2018 Community Health Needs Assessment tactical (action) planning, please see the detail in the Details Data section of the report. Actions for improvements included but not limited to creation of a community resource guide (posted on the website), coordination of events and care models with community resources, recruitment of primary and specialty providers, and agreement with Senior Life Solutions (providing services for elder in the community).

There were improvements in five (5) of the seven (7) areas. The improvements did not move the issues to "not a problem"; however, did move the issues to "Somewhat of a Problem" in a majority of the participants taking the survey and during Town Hall prioritization (CHNA steps 5 and 6). In the chart below was provided to the participants at the Town Hall meeting (November 2018) and signifies that Mental Health Services and Teen Health still remain a concern for the survey participants. The four (4) other areas were significantly improved in their ratings.

Evaluation of Progress on Key Priorities and Strategic Alignment (CHNA Step 9)

Davis County Hospital and Public Health departments will continually monitor the action plans for changes and adjustments as key findings present within three years. This assessment and findings will be incorporated into future strategic planning efforts and include a systematic cycle of improvement. Improvements will be completed using performance excellence tools, including but not limited to the Plan, Do, Study, Act improvement cycle and will include as many community partners, agencies, and interested individuals as possible for best outcomes and sustainability.

COMMUNITY HEALTH STATUS

Primary Research Findings

In early fall of 2021, Davis County Hospital & Clinics sponsored/conducted primary research (survey) to all area residents residing or receiving services in their primary service area, with 84 individual replies.

Community Health Needs: Survey Results 2021

REPLIES BY ZIP

Davis County CHNA 2021 (Round #3) Sample by PSA Zips

Age 26-44	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Age 45 - 64	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Age 65-84	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Over 85	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7. In your opinion, what areas need additional education or attention in our community.

Please select all that apply

- Abuse/Violence
- Aging (dementia)
- Alcohol
- Alternative Medicine
- Child Care
- Chronic Diseases (ex. diabetes or heart failure)
- Family Planning/Birth Control
- Lead Exposure
- Mental Illness
- Neglect

- Nutrition
- Obesity
- Ozone/Air Quality
- Pain Management
- Poverty
- Preventative Health
- Sexually Transmitted Diseases
- Suicide
- Teen Health (drinking/abuse/safety/pregnancy)
- Tobacco Use
- Uninsured/ Underinsured
- Vaccinations
- Water Quality
- Wellness Education
- Other

8. Does our community need any additional healthcare providers?

select one

- Yes
- No

9. If you feel more providers need to be added, please specify what type is needed.

Enter your answer

10. Are there healthcare services in your community or neighborhood that you feel need to be improved and/or changed?

Enter your answer

11. Over the past 2 years, did you or someone from your household, receive healthcare services outside of your county?

Yes

No

[Next](#)

Additional County Services

12. Please list the health care services you or your household member(s) have received outside of your county.

Enter your answer

13. If offered, would you have received the services locally?

- Yes
- No
- Maybe
