Community Health Needs Assessment

Table of Contents

I. Executive Summary

- a) Community Health Area of Future Focus (A prioritized description of future community unmet needs identified by community discussion)
- b) Town Hall CHNA Health Findings: Areas of Strengths and Areas to Change and/or Improve.

II. Methodology

- a) CHNA Scope and Purpose
- b) Local Collaborating CHNA Parties (The identity of any and all organizations in which the organization collaborated with and third parties that engaged to assist with the CHNA)
- c) CHNA and Town Hall Research Process (A description of the process & methods used to conduct the CHNA, a description of how the organization considered the input of persons representing the community, and an explanation of the process/ criteria used in prioritizing)
- d) Community Profile (A description of the community served by the facility and how the community was determined)

III. Community Health Status

- a) Historical Community Health Indicators Review - Secondary Data
- b) Current Community Health Status - Online Feedback Research

IV. Inventory of Existing County Health Resources

- a) CHNA Inventory of PSA Services and Providers (A description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA)

V. Detail Exhibits

- a) Patient Origin & Access to Care
- b) Town Hall Attendees, Notes, and Feedback
- c) Public CHNA Notice / News
- d) Primary Research Detail

I. Executive Summary

[VVV Consultants LLC]

I. Executive Summary

Davis County Hospital (Primary Service Area) – Davis County, IA - 2024 Community Health Needs Assessment (CHNA)

The previous CHNA for Davis County Hospital and their primary service area, was completed in 2021. (Note: The Patient Protection and Affordable Care Act (ACA) requires not-for-profit hospitals to conduct a CHNA every three years and adopt an implementation strategy to meet the needs identified by the CHNA). Round #5 Davis County, IA CHNA assessment began in March of 2023 and was facilitated / created by VVV Consultants, LLC (Olathe, KS) staff under the direction of Vince Vandehaar, MBA.

Creating healthy communities requires a high level of mutual understanding and collaboration among community leaders. The development of this assessment brings together community health leaders and providers, along with the residents, to research and prioritize county health needs and document community health delivery success. This health assessment will serve as the foundation for community health improvement efforts for the next three years. **Important community CHNA Benefits** for both the local hospital and the health department, are as follows: 1.) Increases knowledge of community health needs and resources 2.) Creates common understanding of the priorities of the community’s health needs 3.) Enhances relationships and mutual understanding between and among stakeholders 4.) Provides a basis upon which community stakeholders can make decisions about how they can contribute to improving the health of the community 5.) Provides rationale for current and potential funders to support efforts to improve the health of the community 6.) Creates opportunities for collaboration in delivery of services to the community and 7.) Provides guidance to the hospital and local health department for how they can align their services and community benefit programs to best meet needs, and 8.) fulfills Hospital “Mission” to deliver.

County Health Area of Future Focus on Unmet Needs

Area Stakeholder held a community conversation to review, discuss and prioritize health delivery. Below are two tables reflecting community views and findings:

2024 CHNA Priorities				
Unmet Health Needs - Davis County, IA				
on behalf Davis Co Hosp and Public Health				
Wave #5 Town Hall 9/28/23 (22 Attendees / 19 Voters /76 Total Votes)				
#	Community Health Needs to Change and/or Improve	Votes	%	Accum
1	Mental Health (Diag,Treatment, Aftercare, Provider Access) Juvenile	27	35.5%	36%
2	Primary Care Access	9	11.8%	47%

Key CHNA Round #5 Secondary Research Conclusions found:

IOWA HEALTH RANKINGS: According to the 2022 Robert Wood Johnson County Health Rankings, Davis County, IA Average was ranked 76th in Health Outcomes, 75th in Health Factors, and 30th in Physical Environmental Quality out of the 99 Counties.

TAB 1. Davis County's population is 9,130 (based on 2022). About eight percent (8.4%) of the population is under the age of 5, while the population that is over 65 years old is 18.6%. As of 2021, 25.2% of citizens speak a language other than English in their home. Children in single parent households make up a total of 7.7% compared to the rural norm of 17.9%, and total Veterans in the county are 318.

TAB 2. In Davis County, the average per capita income is \$31,784 while 10.1% of the population is in poverty. The severe housing problem was recorded at 12% compared to the rural norm of 11.2%. Those with food insecurity in Davis County is 6.8%, and those having limited access to healthy foods (store) is 3.3%. Individuals recorded as having a long commute while driving alone is 34.6% compared to the norm of 26.3%.

TAB 3. Children eligible for a free or reduced-price lunch in Davis County is 50%. Roughly eighty percent (79.5%) of students graduated high school compared to the rural norm of 90.2%, and 19.1% have a bachelor's degree or higher.

TAB 4. The rate of births where prenatal care started in the first trimester is 545.2 (per 1,000) compared to the rural norm of 743.4. Additionally, 41.9 (per 1,000) of births in Davis County have a low birth weight. The rate of all births occurring to teens (15-19) is 61.3 compared to 127.8.

TAB 5. The Davis County primary care service coverage ratio is 1 provider (county based office physician who is a MD and/or DO) to 3,017 residents. There were 1,342 preventable hospital stays in 2020 compared to the Rural Norm of 2,499. The average time patients spent in the emergency department before seen was 108 minutes.

TAB 6. In Davis County, 19.2% of the Medicare population has depression. The average mentally unhealthy days last reported (2020) is 4.5 days in a one-week period, while the age-adjusted suicide mortality rate (per 100,000) is 13.3.

Secondary Research Continued

TAB 7a – 7b. Davis County has an obesity percentage of 37.7% and a physical inactivity percentage is 25.7%. The percentage of adults who smoke is 20.1%, while the excessive drinking percentage is 24.3%. The Medicare hypertension percentage is 51.7%, while their heart failure percentage is 16%. Those with chronic kidney disease amongst the Medicare population is 20.5% compared to the rural norm of 20.7%. The percentage of individuals who were recorded with COPD was 10%. Davis County recorded 2.9% of individuals having had a stroke.

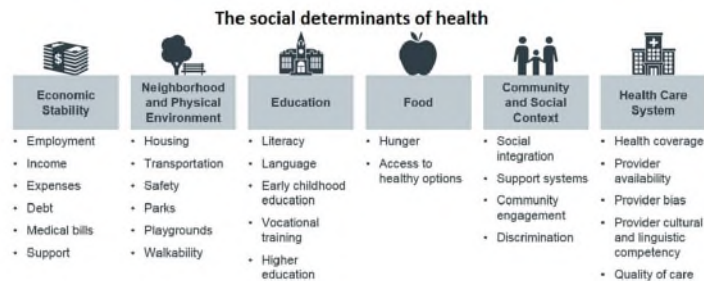

TAB 8. The adult uninsured rate for Davis County is 10.2% (based on 2020) compared to the rural norm of only 6.8%.

TAB 9. The life expectancy rate in Davis County for males and females is seventy-eight years of age (78.1). The age-adjusted Cancer Mortality rate per 100,000 is 189.4. The age-adjusted heart disease mortality rate per 100,000 is at 209.4.

TAB 10. A recorded 41.3% of Davis County has access to exercise opportunities. Those reported having diabetes was 8.7%. Continually, thirty-nine percent (39.0%) of women in Davis County seek annual mammography screenings compared to the rural norm of 38.6%.

Social Determinants Views Driving Community Health: From the online survey, the Health Care System, Economic Stability, and Food are Social Determinants impacting health in Davis County, IA

Social Determinants Online Community Feedback – Davis County N=200

CHNA 2024 Feedback: Davis County IA N=200	
The ability to get a same day appointment in the clinic. It is not helpful for people that call for an appointment Monday, after being sick all weekend and being unable to be seen until days later. This gives more patient care to surrounding walk in clinics.	Healthy options are too expensive for families. They can buy more 'unhealthy' food than they can buy healthy items for the same amount of money.
Easier access to mental health and substance abuse treatment.	Need Surgeon, Rheumatologist, OB/Gyn, Mental Health, Substance Abuse, Care Giver health/ support, Dental, Cardiology, Chronic Condition wellness planning, Nutritional health for Diabetes, Sports Medicine, Dermatology..

Key CHNA Round #5 Primary Research Conclusions found:

Community Feedback from residents, community leaders and providers (N=200) provided the following community insights via an online perception survey:

- Using a Likert scale, the average between Davis County stakeholders and residents that would rate the overall quality of healthcare delivery in their community as either Very Good or Good; is 66%.
- Davis County stakeholders are satisfied with some of the following services: Ambulance Services, Emergency Room, Pharmacy and Public Health.
- When considering past CHNA needs, the following topics came up as the most pressing: Mental Health, Child Care, Local Access to Specialty Care, Oncology Services, Senior Care, Local Access to Primary Care, Chronic Disease Management, Alcohol / Substance Abuse, Care Coordination for SRs, and Teen Health / Education.

Davis Co IA - CHNA YR 2023 N=200

II. Methodology

[VVV Consultants LLC]

II. Methodology

a) CHNA Scope and Purpose

The federal Patient Protection and Affordable Care Act (ACA) requires that each registered 501(c)3 hospital conduct a Community Health Needs Assessment (CHNA) at least once every three years and adopt a strategy to meet community health needs. Any hospital that has filed a 990 is required to conduct a CHNA. IRS Notice 2011-52 was released in late fall of 2011 to give notice and request comments.

JOB #1: Meet/Report IRS 990 Required Documentation

1. A description of the community served by the facility and how the community was determined;
2. A description of the process and methods used to conduct the CHNA;
3. The identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA;
4. A description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications;
5. A prioritized description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and
6. A description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

Section 501(r) provides that a CHNA must take into account input from persons who represent the broad interests of the community served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: Government agencies with current information relevant to the health needs of the community and representatives or members in the community who are medically underserved, low-income, minority populations, and populations with chronic disease needs. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.).

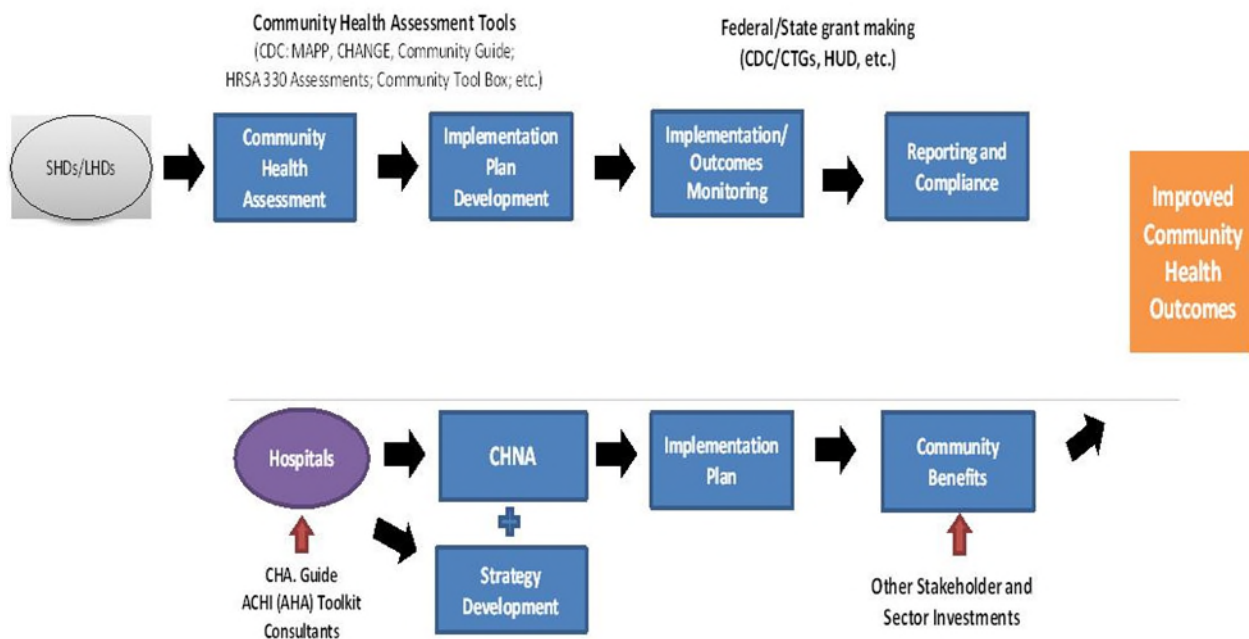

JOB #2: Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be "conducted" in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for **making a CHNA "widely available to the public"** after the rules currently in effect for Form 990. Accordingly, an organization would make a **facility's written report** widely available by posting the final report on its website either in the form of (1) the report itself, in a readily accessible format or (2) a link to another organization's website, along with instructions for accessing the report on that website. *The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.*

JOB #3: Adopt an Implementation Strategy by Hospital

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. The Notice defines an “implementation strategy” as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it. A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Great emphasis has been given to work hand-in-hand with leaders from hospitals, the state health department and the local health department. A common approach has been adopted to create the CHNA, leading to aligned implementation plans and community reporting.

IRS Requirements Overview (Notice 2011-52)

Notice and Request for Comments Regarding the Community Health Needs Assessment Requirements for Tax-exempt Hospitals

Applicability of CHNA Requirements to “Hospital Organizations”

The CHNA requirements apply to “hospital organizations,” which are defined in Section 501(r) to include (1) organizations that operate one or more state-licensed hospital facilities, and (2) any other organization that the Treasury Secretary determines is providing hospital care as its principal function or basis for exemption.

How and When to Conduct a CHNA

Under Section 501(r), a hospital organization is required to conduct a CHNA for each of its hospital facilities once every three taxable years. ***The CHNA must take into account input from persons representing the community served by the hospital facility and must be made widely available to the public. The CHNA requirements are effective for taxable years beginning after March 23, 2012.*** As a result, a hospital organization with a June 30 fiscal year end must complete a CHNA full report every 3 years for each of its hospital facilities by fiscal June 30th.

Determining the Community Served

A CHNA must identify and assess the health needs of the **community served** by the hospital facility. Although the Notice suggests that geographic location should be the primary basis for defining the community served, it provides that the organization may also take into account the target populations served by the facility (e.g., children, women, or the aged) and/or the facility’s principal functions (e.g., specialty area or targeted disease). *A hospital organization, however, will not be permitted to define the community served in a way that would effectively circumvent the CHNA requirements (e.g., by excluding medically underserved populations, low-income persons, minority groups, or those with chronic disease needs).*

Persons Representing the Community Served

Section 501(r) provides that a CHNA must take into account input from **persons who represent the broad interests of the community** served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: (1) government agencies with current information relevant to the health needs of the community and (2) representatives or members of medically underserved, low-income, and minority populations, and populations with chronic disease needs, in the community. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility’s defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.).

Required Documentation

The Notice provides that a hospital organization will be required to separately document the CHNA for each of its hospital facilities in a **written report** that includes the following information: 1) a description of the community served by the facility and how the community was determined; 2) a description of the process and methods used to conduct the CHNA; 3) the identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA; 4) a description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications; 5) a prioritized

description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and 6) a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be **“conducted”** in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for making a CHNA “widely available to the public” after the rules currently in effect for Forms 990. *Accordingly, an organization would make a facility’s written report widely available by posting on its website either (1) the report itself, in a readily accessible format, or (2) a link to another organization’s website, along with instructions for accessing the report on that website. The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.*

How and When to Adopt an Implementation Strategy

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. **The Notice defines an “implementation strategy” as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need, or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it.** A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Under the Notice, an implementation strategy is considered to be “adopted” on the date the strategy is approved by the organization’s board of directors or by a committee of the board or other parties legally authorized by the board to act on its behalf. Further, the formal adoption of the implementation strategy must occur by the end of the same taxable year in which the written report of the CHNA findings was made available to the public. For hospital organizations with a June 30 fiscal year end, that effectively means that the organization must complete and appropriately post its first CHNA no later than its fiscal year ending June 30, 2013, and formally adopt a related implementation strategy by the end of the same tax year. *This final requirement may come as a surprise to many charitable hospitals, considering Section 501(r) contains no deadline for the adoption of the implementation strategy.*

IRS Community Health Needs Assessment for Charitable Hospital Organizations - Section 501(0)(3) Last Reviewed or Updated: 21-Aug-2020

In addition to the general requirements for tax exemption under Section 501(c)(3) and Revenue Ruling 69-545 hospital organizations must meet the requirements imposed by Section 501(r) on a facility-by-facility basis in order to be treated as an organization described in Section 501(c)(3). These additional requirements are:

1. Community Health Needs Assessment (CHNA) - Section 501(r)(3),
2. Financial Assistance Policy and Emergency Medical Care Policy - Section 501(r)(4),
3. Limitation on Charges - Section 501(r)(5), and
4. Billing and Collections - Section 501(r)(6).

Medically underserved populations include populations experiencing health disparities or that are at risk of not receiving adequate medical care because of being uninsured or underinsured, or due to geographic, language, financial, or other barriers. Populations with language barriers include those with limited English proficiency. Medically underserved populations also include those living within a hospital facility’s service area but not receiving adequate medical care from the facility because of cost, transportation difficulties, stigma, or other barriers.

Additionally, in determining its patient populations for purposes of defining its community, a hospital facility must take into account all patients without regard to whether (or how much) they or their insurers pay for the care received or whether they are eligible for assistance under the hospital facility's financial assistance policy. If a hospital facility consists of multiple buildings that operate under a single state license and serve different geographic areas or populations, the community served by the hospital facility is the aggregate of these areas or populations.

Additional Sources of Input

In addition to soliciting input from the three required sources, a hospital facility may solicit and take into account input received from a broad range of persons located in or serving its community. This includes, but is not limited to:

- Health care consumers and consumer advocates
- Nonprofit and community-based organizations
- Academic experts
- Local government officials
- Local school districts
- Health care providers and community health centers
- Health insurance and managed care organizations,
- Private businesses, and
- Labor and workforce representatives.

Although a hospital facility is not required to solicit input from additional persons, it must take into account input received from any person in the form of written comments on the most recently conducted CHNA or most recently adopted implementation strategy.

Collaboration on CHNA Reports

A hospital facility is permitted to conduct its CHNA in collaboration with other organizations and facilities. This includes related and unrelated hospital organizations and facilities, for-profit and government hospitals, governmental departments, and nonprofit organizations.

In general, every hospital facility must document its CHNA in a separate CHNA report unless it adopts a joint CHNA report. However, if a hospital facility is collaborating with other facilities and organizations in conducting its CHNA, or if another organization has conducted a CHNA for all or part of the hospital facility's community, portions of a hospital facility's CHNA report may be substantively identical to portions of the CHNA reports of a collaborating hospital facility or other organization conducting a CHNA, if appropriate under the facts and circumstances.

If two hospital facilities with overlapping, but not identical, communities collaborate in conducting a CHNA, the portions of each hospital facility's CHNA report relevant to the shared areas of their communities might be identical. So, hospital facilities with different communities, including general and specialized hospitals, may collaborate and adopt substantively identical CHNA reports to the extent appropriate. However, the CHNA reports of collaborating hospital facilities should differ to reflect any material differences in the communities served by those hospital facilities. Additionally, if a governmental public health department has conducted a CHNA for all or part of a hospital facility's community, portions of the hospital facility's CHNA report may be substantively identical to those portions of the health department's CHNA report that address the hospital facility's community.

Collaborating hospital facilities may produce a joint CHNA report as long as all of the collaborating hospital facilities define their community to be the same and the joint CHNA report contains all of the same basic information that separate CHNA reports must contain. Additionally, the joint CHNA report must be clearly identified as applying to the hospital facility.

Joint Implementation Strategies

As with the CHNA report, a hospital facility may develop an implementation strategy in collaboration with other hospital facilities or other organizations. This includes but is not limited to related and unrelated

hospital organizations and facilities, for-profit and government hospitals, governmental departments, and nonprofit organizations. In general, a hospital facility that collaborates with other facilities or organizations in developing its implementation strategy must still document its implementation strategy in a separate written plan that is tailored to the particular hospital facility, taking into account its specific resources. However, a hospital facility that adopts a joint CHNA report may also adopt a joint implementation strategy. With respect to each significant health need identified through the joint CHNA, the joint implementation strategy must either describes how one or more of the collaborating facilities or organizations plan to address the health need or identify the health need as one the collaborating facilities or organizations do not intend to address. It must also explain why they do not intend to address the health need.

A joint implementation strategy adopted for the hospital facility must also: Be clearly identified as applying to the hospital facility, Clearly identify the hospital facility's role and responsibilities in taking the actions described in the implementation strategy as well as the resources the hospital facility plans to commit to such actions, and Include a summary or other tool that helps the reader easily locate those portions of the joint implementation strategy that relate to the hospital facility.

Adoption of Implementation Strategy

An authorized body of the hospital facility must adopt the implementation strategy. See the discussion of the Financial Assistance Policy below for the definition of an authorized body. This must be done on or before the 15th day of the fifth month after the end of the taxable year in which the hospital facility finishes conducting the CHNA. This is the same due date (without extensions) of the Form 990.

Acquired Facilities A hospital organization that acquires a hospital facility (through merger or acquisition) must meet the requirements of Section 501(r)(3) with respect to the acquired hospital facility by the last day of the organization's second taxable year beginning after the date on which the hospital facility was acquired. In the case of a merger that results in the liquidation of one organization and survival of another, the hospital facilities formerly operated by the liquidated organization will be considered "acquired," meaning they will have until the last day of the second taxable year beginning after the date of the merger to meet the CHNA requirements. Thus, the final regulations treat mergers equivalently to acquisitions.

New Hospital Organizations

An organization that becomes newly subject to the requirements of Section 501(r) because it is recognized as described in Section 501(c)(3) and is operating a hospital facility must meet the requirements of Section 501(r)(3) with respect to any hospital facility by the last day of the second taxable year beginning after the latter of: The effective date of the determination letter recognizing the organization as described in Section 501(c)(3), or The first date that a facility operated by the organization was licensed, registered, or similarly recognized by a state as a hospital.

New Hospital Facilities

A hospital organization must meet the requirements of Section 501(r)(3), with respect to a new hospital facility it operates by the last day of the second taxable year beginning after the date the facility was licensed, registered, or similarly recognized by its state as a hospital.

Transferred/Terminated Facilities

A hospital organization is not required to meet the requirements of Section 501(r)(3) with respect to a hospital facility in a taxable year if the hospital organization transfers all ownership of the hospital facility to another organization or otherwise ceases its operation of the hospital facility before the end of the taxable year. The same rule applies if the hospital facility ceases to be licensed, registered, or similarly recognized as a hospital by a state during the taxable year. By extension, a government hospital organization that voluntarily terminates its Section 501(c)(3) recognition as described in Rev. Proc. 2018-5 (updated annually) is no longer considered a hospital organization for purposes of Section 501(r) and therefore is not required to meet the CHNA requirements during the taxable year of its termination.

Public Health Criteria:

Domain 1: Conduct and disseminate assessments focused on population health status and public health issues facing the community.

Domain 1 focuses on the assessment of the health of the population in the jurisdiction served by the health department. The domain includes systematic monitoring of health status; collection, analysis, and dissemination of data; use of data to inform public health policies, processes, and interventions; and participation in a process for the development of a shared, comprehensive health assessment of the community.

DOMAIN 1 includes 4 STANDARDS:

- **Standard 1.1** - Participate in or Conduct a Collaborative Process Resulting in a Comprehensive Community Health Assessment
- **Standard 1.2** - Collect and Maintain Reliable, Comparable, and Valid Data That Provide Information on Conditions of Public Health Importance and on the Health Status of the Population
- **Standard 1.3** - Analyze Public Health Data to Identify Trends in Health Problems, Environmental Public Health Hazards, and Social and Economic Factors That Affect the Public's Health
- **Standard 1.4** - Provide and Use the Results of Health Data Analysis to Develop Recommendations Regarding Public Health Policy, Processes, Programs, or Interventions

Required CHNA Planning Process Requirements:

- a. Participation by a wide range of community partners.
- b. Data / information provided to participants in CHNA planning process.
- c. Evidence of community / stakeholder discussions to identify issues & themes. Community definition of a "healthy community" included along with list of issues.
- d. Community assets & resources identified.
- e. A description of CHNA process used to set priority health issues.

Seven Steps of Public Health Department Accreditation (PHAB):

1. Pre-Application
2. Application
3. Document Selection and Submission
4. Site Visit
5. Accreditation Decision
6. Reports
7. Reaccreditation

MAPP Process Overview

Mobilizing for Action through Planning and Partnerships (MAPP) is a flexible strategic planning tool for improving the health and quality of life for the community. Like most strategic planning, MAPP involves organizing partners, creating a vision and shared values, collecting data, identifying areas for improvement, and developing goals and strategies to address them. Through collaboration with partners and the community, MAPP allows us to focus our efforts and work on issues to strengthen the local public health system.

The MAPP process includes the following six phases. It's important to note that MAPP has no set end point and will continue throughout the life cycle of the Community Health Improvement Plan (CHIP).

1. In this first phase, **Organize for Success/Partnership Development**, various sectors of the community with established relationships are reviewed, leading to the identification of areas for partnership development and creation of new relationships to enhance the MAPP process.
2. In the second phase, **Visioning**, a shared community vision and common values for the MAPP process are created.
3. In the third phase, **Four MAPP Assessments**, data is collected from existing and new sources about the health of our community, which results in a Community Health Assessment (CHA).
4. In the fourth phase, **Identify Strategic Issues**, community partners and health professionals select issues based on data collected from the third phase that are critical to the local public health system and align with the vision from the second phase.
5. In the fifth phase, **Formulate Goals and Strategies**, potential ways to address the strategic issues are identified by the community along with the setting of achievable goals. The final result is a Community Health Improvement Plan (CHIP).
6. The sixth and final phase of the MAPP process is the **Action Cycle**, which is where the work happens for meeting the objectives set in the previous phase. Through these collaborative efforts, the health of the community is improved.

Social Determinants of Health

What Are Social Determinants of Health?

[Social determinants of health \(SDOH\)external icon](#) are defined as the conditions in which people are born, grow, live, work, and age. SDOH are shaped by the distribution of money, power, and resources throughout local communities, nations, and the world. Differences in these conditions lead to health inequities or the unfair and avoidable differences in health status seen within and between countries.

[Healthy People 2030external icon](#) includes SDOH among its leading health indicators. One of Healthy People 2030's five overarching goals is specifically related to SDOH: Create social, physical, and economic environments that promote attaining the full potential for health and well-being for all.

Through broader awareness of how to better incorporate SDOH throughout the multiple aspects of public health work and the [10 Essential Public Health Services](#), public health practitioners can transform and strengthen their capacity to advance health equity. Health equity means that everyone has a fair and just opportunity to be as healthy as possible. This requires removing obstacles to health, such as poverty, discrimination, and their consequences, including powerlessness and lack of access to good jobs with fair pay, quality education and housing, safe environments, and health care.

Round #5 CHNA focuses on Social Determinants & Health Equity.

Centers for Medicare & Medicaid Services Health Equity Domains

CMS' Hospital Commitment to Health Equity has introduced two equity-focused process measures in 2023: screening for Social Drivers of Health (SDOH-01) and Screen Positive Rate for Social Drivers of Health (SDOH-02). (Although these measures will not be required until 2024, it is highly recommended that hospitals begin tracking them in 2023.)

Domain 1: Equity as a Strategic Priority

The hospital has a strategic plan for advancing health care equity that accomplishes the following:

- Identifies priority populations who currently experience health disparities.
- Establishes health care equity goals and discrete action steps to achieve them.
- Outlines specific resources that are dedicated to achieving equity goals.
- Describes an approach for engaging key stakeholders, such as community partners.

Domain 2: Data Collection

The hospital is engaging in the following three key data collection activities.

- Collecting demographic information, including self-reported race and ethnicity, and SDOH information, on a majority of patients
- Training staff in the culturally sensitive collection of demographics and SDOH information
- Inputting patient demographic and/ or SDOH information into structured interoperable data elements using a certified electronic health record technology.

Domain 3: Data Analysis

The hospital stratifies key performance indicators by demographic and/ or SDOH variables to identify equity gaps and includes this information on hospital performance dashboards.

Domain 4: Quality Improvement

The hospital participates in local, regional and or national quality improvement activities that are focused on reducing health disparities.

Domain 5: Leadership Engagement

The hospital's senior leadership, including the chief executives and the entire hospital board of trustees, demonstrates a commitment to equity through the following two activities.

- Annual reviews of the hospital's strategic plan for achieving health equity
- Annual reviews of key performance indicators stratified by demographic and/ or social factors.

The Joint Commission (TJC) Elements of Performance - Regulatory and Accreditation Requirements Related to Health Equity and Social Determinants of Health

New and revised TJC requirements to reduce health care disparities went into effect Jan. 1, 2023. Below are the six elements of performance.

Element of Performance 1:

The organization designates an individual to lead activities aimed at reducing healthcare disparities. **(Hospital Responsibility)**

Element of Performance 2:

The organization assesses the patient's health-related social needs and provides information about community resources and support services. **(CHNA full report- Section I and III)**

Examples of health-related social needs may include the following:

- Access to transportation
- Difficulty paying for prescriptions or medical bills.
- Education and literacy
- Food insecurity
- Housing insecurity

Element of Performance 3:

The organization identifies healthcare disparities in its patient population by stratifying quality and safety data. **(CHNA Town Hall)** Examples of sociodemographic characteristics may include but are not limited to the following: Age, Gender, Preferred Language, Race, and ethnicity.

Element of Performance 4:

The organization develops a written action plan that describes how it will address at least one of the healthcare disparities identified. **(CHNA IMPL Development Plan)**

Element of Performance 5:

The organization acts when it does not achieve or sustain goal(s) in its action plan to reduce health care disparities.

Element of Performance 6:

At least annually, the organization informs key stakeholders, identifying leaders, licensed practitioners, and staff, about its progress in reducing identified healthcare disparities. **(Hospital Responsibility)**

II. Methodology

b) Collaborating CHNA Parties

Working together to improve community health takes collaboration. Listed below is an in-depth profile of the local hospital and health department CHNA partners:

Davis County Hospital & Health Clinics

Address

**509 North Madison Street
Bloomfield, Iowa 52537
CEO: Veronic Fuhs**

MercyOne Affiliation

Davis County Hospital & Clinics partners with MercyOne – Des Moines through both a management agreement and a Critical Access Hospital agreement. However, the Davis County Hospital & Clinics Board of Trustees, elected by the residents of Davis County, along with the Administrator, maintains complete control in all areas of Davis County Hospital & Clinics operations.

Being a MercyOne Affiliate permits Davis County Hospital & Clinics, a rural, primary-care facility, to take advantage of cost savings provided to a larger, tertiary facility such as MercyOne. In addition, the relationship affords Davis County Hospital the management expertise and educational offerings of a larger organization that would not otherwise be readily available.

As part of a larger network of rural facilities, there is a collegiality that allows for sharing of ideas and best practices throughout the network. Collaborating with MercyOne -Des Moines truly provides a level of support that is available to enhance all areas of service provided by Davis County Hospital & Clinics!

What does the agreement mean for our patients? A highly trained staff and more dollars devoted towards continually improving patient care!

Being a MercyOne DOES NOT mean that our patients must use MercyOne physicians if they need additional care or that our patients must be transferred to MercyOne for emergent care. In fact, we are required by law to give each patient a choice on where to receive care above the scope that is offered at Davis County Hospital. Our emergency department is open 24 hours, 365 days a year and is staffed by experienced physicians who can respond to any medical emergency.

Our Services Include:

- Allergy & Immunology
- Allergy & Pulmonary
- Cardiac Rehab
- Dermatology
- Ear Nose & Throat
- Emergency Department
- Inpatient
- Medical Imaging
- Gynecology
- Orthopedics
- Rehabilitation
- Podiatry
- Pre & Post Natal
- Davis County Public Health
- Pulmonary Rehab
- Senior Life Solutions
- Skilled Care / Swing Bed
- Sleep Center
- Speech Therapy

Davis County Public Health Department

Address

509 North Madison Street

Bloomfield, Iowa 52537

Health Department Admin: Lynn Fellingner

Davis County Public Health has been providing service to the residents of Davis County since 1967.

Our Services Include:

- Skilled Nursing visit by RN
- Fall risk assessment
- Skin assessment
- Drug Regimen Review
- Medication Management
- B/P clinics
- Patient Education
- Dressing Changes
- Injections
- Pain Management
- Blood draws & specimen collection
- Newborn baby visits
- Referral to community services

b) Collaborating CHNA Parties Continued

Consultant Qualifications:

VVV Consultants LLC 601 N. Mahaffie, Olathe, KS 66061 (913) 302-7264

VVV Consultants LLC is an Olathe, KS based "boutique" healthcare consulting firm specializing in Strategy, Research and Business Development services. To date we have completed 83 unique community CHNA's in KS, MO, IA, NE and WI (references found on our website VandehaarMarketing.com)

Introduction: Who We Are

Background and Experience

VVV Consultants LLC
601 N Mahaffie
Olathe, KS 66061

Core Values

Engaged
Reliable
Skilled ---
Innovative
Accountable

Vince Vandehaar, MBA – Principal

VVV Consultants LLC – *start 1/1/09* *

- Adjunct Full Professor @ Avila & Webster Universities
- 40+ year veteran marketer, strategist and researcher
- Saint Luke's Health System, BCBS of KC,
- Tillinghast Towers Perrin, and Lutheran Mutual Life
- Hometown: Bondurant IA

Olivia G Hewitt BA– Associate Consultant

VVV Consultants LLC – *May 2024*

- > Emporia State University – Communications / Marketing
- > Hometown: Olathe, KS

Cassandra Kahl, BHS MHA– Director, Project Management

VVV Consultants LLC – *Nov 2020*

- > University of Kansas – Health Sciences
- > Park University - MHA
- > Hometown: Maple, WI

VVV Consultants LLC (EIN 27-0253774) began as "VVV Research & Development INC" in early 2009 and converted to an LLC on 12/24/12. Web: VandehaarMarketing.com

Our Mission: to research, facilitate, train, create processes to improve market performance, champion a turnaround, and uncover strategic "critical success" initiatives.

Our Vision: to meet today's challenges with the voice of the market solutions.

Our Values:

Engaged – we are actively involved in community relations & boards.

Reliable – we do what we say we are going to do.

Skilled – we understand business because we've been there.

Innovative – we are process-driven & think "out of the box."

Accountable – we provide clients with a return on their investment.

II. Methodology

c) CHNA and Town Hall Research Process

Round #5 Community Health Needs Assessment (CHNA) process began in July of 2023 for Davis County Hospital and Health Clinics (DCH) in Davis County, IA to meet Federal IRS CHNA requirements.

In early July 2023, a meeting was called amongst the DCH leaders to review CHNA collaborative options. <Note: VVV Consultants LLC from Olathe, KS was asked to facilitate this discussion with the following agenda: VVV CHNA experience, review CHNA requirements (regulations) and discuss CHNA steps/options to meet IRS requirements and to discuss next steps.> Outcomes from discussion led to the DCH to request VVV Consultants LLC to complete a CHNA IRS aligned comprehensive report.

VVV CHNA Deliverables:

- Document Hospital Primary Service Area - meets the 80-20 Patient Origin Rule.
- Uncover / document basic secondary research county health data, organized by 10 tabs.
- Conduct / report CHNA Community Check-in Feedback Findings (primary research).
- Conduct a Town Hall meeting to discuss with community secondary & primary data findings leading to determining (prioritizing) county health needs.
- Prepare & publish CHNA report which meets ACA requirements.

To ensure proper PSA Town Hall representation (that meets the 80-20 Patient Origin Rule), a patient origin three-year summary was generated documenting patient draw by zips as seen below:

Origination of DCH patients: PSA defined Yr 2020-2022							Inpatients			ER			OP proc			Clinic MAC		
#	ZIP	City	County	TOT 3yr I/E/O	Accum	3YR %	2022	2021	2020	2022	2021	2020	2022	2021	2020	2022	2021	2020
		DCH Patient Totals		102,496	100.0%		174	157	202	4,054	3942	3,012	28504	28688	18725	3941	5623	5474

4	52560	Floris, IA - 52560	DAVIS	2,694	2.6%	68.7%	8	6	1	91	108	92	745	769	508	85	138	143
5	52501	Ottumwa, IA - 52501	WAPELLO	14,141	13.8%	82.5%	25	26	26	978	869	601	3,655	3,656	2,568	451	637	649

To meet IRS aligned CHNA requirements and meet Public Health accreditation criteria stated earlier, a four-phase methodology was followed:

Phase I—Discovery:

Conduct a 30-minute conference call with the CHNA county health department and hospital clients. Review / confirm the CHNA calendar of events, explain / coach clients to complete the required participant database, and schedule / organize all Phase II activities.

Phase II—Qualify Community Need:

A) Conduct secondary research to uncover the following historical community health status for the primary service area. Use Kansas Hospital Association (KHA), Vital Statistics, Robert Wood Johnson County Health Rankings, etc. to document current state of county health organized as follows:

Health Indicators - Secondary Research
TAB 1. Demographic Profile
TAB 2. Economic Profile
TAB 3. Educational Profile
TAB 4. Maternal and Infant Health Profile
TAB 5. Hospital / Provider Profile
TAB 6. Behavioral / Mental Health Profile
TAB 7. High-Risk Indicators & Factors
TAB 8. Uninsured Profile
TAB 9. Mortality Profile
TAB 10. Preventative Quality Measures

Phase III—Quantify Community Need:

Conduct a 90-minute Town Hall meeting with required community primary service area residents. At each Town Hall meeting, CHNA secondary data will be reviewed, facilitated group discussion will occur and a group ranking activity to determine the most important community unmet health needs was administered.

Phase IV—Complete Data Analysis and Create Comprehensive Community Health Needs Assessment:

Complete full documentation to create each CHNA section documented in the Table of Contents. Publish hard copy reports (2) for client usage plus create a full CHNA report pdf to be posted on the hospital website to meet government CHNA regulation criteria.

Specific project CHNA roles, responsibilities, and timelines are documented in the following calendar.

2024 CHNA Project Calendar - Davis County, IA on behalf of Davis County Hospital & Clinics and Davis Co Public Health Work Timeline & Roles - Working Draft as of 7/18/23			
Step	Timeframe	Lead	Task
1	Mar-23	VVV / Hosp	Sent Leadership information regarding CHNA Wave #4 for review.
2	7/14/2023	Hosp	Select CHNA Wave #4 Option B. Approve / Sign VVV CHNA quote
3	7/18/23	VVV	Send out REQCommInvite Excel file. HOSP & HLTH Dept to fill in PSA Stakeholders Names /Address /Email
4	7/20/2023	VVV	Hold Kick-off Meeting Request Hospital Client to send IHA PO reports for FFY 20, 21,22 plus request client to complete 3 year historical PSA IP/OP/ER/Clinic to document patient origin file. (ZipPSA_3yrPOrigin.xls)
5	7/20/2023	VVV	Prepare CHNA Wave#4 Stakeholder Feedback "online link". Send link for hospital review.
6	July-Aug 2023	VVV	Assemble & complete Secondary Research - Find / populate 10 TABS. Create Town Hall ppt for presentation.
7	7/18/2023	VVV	Prepare/send out PR story / E Mail #1 announcing upcoming CHNA work. Ask CEO to review/approve.
8	7/18/2023	Hosp	Place PR #1 story to local media CHNA survey announcing "online CHNA Wave #4 feedback". Request public to participate. Send E Mail request to local stakeholders
9	7/31/2023	VVV	Launch / conduct online survey to stakeholders: Hospital will e-mail invite to participate to all stakeholders. Cut-off 8/25/2023 for Online Survey
10	9/1/2023	Hosp	Prepare/send out Community TOWN HALL request invite Email #2 to Stakeholders
11	9/1/2023	VVV / Hosp	Prepare/send out PR #2 story to local media announcing upcoming Town Hall. VVV will mock-up PR release to media sources.
12	9/26/2023	ALL	Conduct conference call (time TBD) with Hospital / Public HLTH to review Town Hall data / flow
13	Thursday, 9/28/23	VVV	Conduct CHNA Town Hall for Dinner 5-6:30pm at XXX . Review & Discuss Basic health data plus RANK Health Needs.
14	On or Before 10/20/2021	VVV	Complete Analysis - Release Draft 1- seek feedback from Leaders (Hospital & Health Dept.)
15	1/15/2024	VVV	Produce & Release final CHNA report. Hospital will post CHNA online (website).
16	On or before 2/15/24	Hosp	Conduct Client Implementation Plan PSA Leadership meeting.
17	March 2024	Hosp	Hold Board Meetings discuss CHNA needs, create & adopt an implementation plan. Communicate CHNA plan to community.

Town Hall Participation

- ALL attendees practice “Safe Engagement”, working together in teams by table.
- ALL attendees welcome to share. Engaging conversation (No right or wrong answer)
 - Parking Lot
- ALL Take Notes – Important health indicators
- Please give truthful responses – Serious community conversation.
- Purpose: Discuss / Determine unmet health needs
- Have a little fun along the way

5

Community Health Needs Assessment Joint Process: Hospital & Local Health Providers

6

A Conversation with the Community & Stakeholders

Community members and organizations invited to CHNA Town Hall

Consumers: Uninsured/underinsured people, Members of at-risk populations, Parents, caregivers and other consumers of health care in the community, and Consumer advocates.

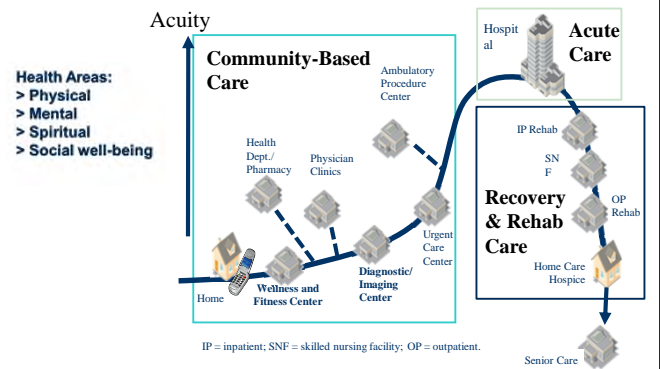

Community leaders and groups: The hospital organization’s board members, Local clergy and congregational leaders, Presidents or chairs of civic or service clubs – Chamber of Commerce, veterans’ organizations, Lions, Rotary, etc., Representatives from businesses – owners/CEO’s of large businesses (local or large corporations with local branches), Business people & merchants (e.g., who sell tobacco, alcohol, or other drugs), Representatives from organized labor, Political, appointed and elected officials., Foundations., United Way organizations. And other “community leaders.”

Public and other organizations: Public health officials, Directors or staff of health and human service organizations, City/Community planners and development officials, Individuals with business and economic development experience, Welfare and social service agency staff, Housing advocates - administrators of housing programs: homeless shelters, low-income-family housing and senior housing, Education officials and staff - school superintendents, principals and teachers, Public safety officials, Staff from state and area agencies on aging, Law enforcement agencies - Chiefs of police, Local colleges and universities, Coalitions working on health or other issues.

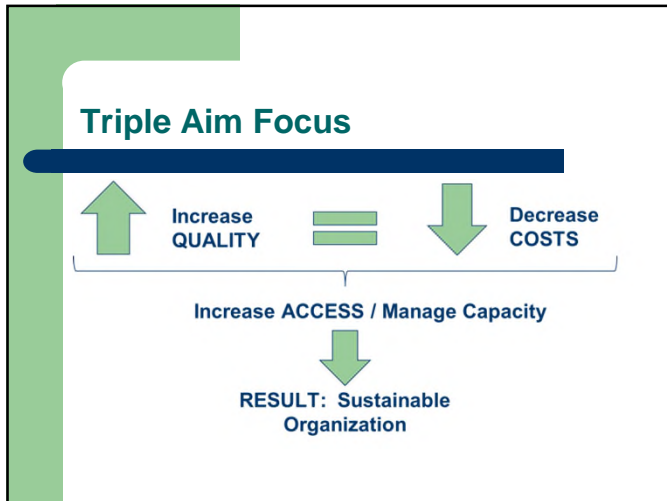

Other providers: Physicians, Leaders in other not-for-profit health care organizations, such as hospitals, clinics, nursing homes and home-based and community-based services, Leaders from Catholic Charities and other faith-based service providers, Mental health providers, Oral health providers, Health insurers, Parish and congregational nursing programs, Other health professionals

7

Future System of Care—Sg2

8

9

CMS Priorities for the 2022-2023 Framework for Health Equity

1. **Priority 1:** Expand the Collection, Reporting, and Analysis of Standardized Data
2. **Priority 2:** *Assess Causes of Disparities within CMS Programs and Address Inequities in Policies and Operations to Close Gaps*
3. **Priority 3:** Build Capacity of Health Care Organizations and the Workforce to Reduce Health and Health Care Disparities
4. **Priority 4:** Advance Language Access, Health Literacy, and the Provision of Culturally Tailored Services
5. **Priority 5:** Increase All Forms of Accessibility to Health Care Services and Coverage

10

II. Review of a CHNA

- What is a Community Health Needs Assessment (CHNA)..?
 - Systematic collection, assembly, analysis, and dissemination of information about the health of the community.
- A CHNA's role is to....
 - Identify factors that affect the health of a population and determine the availability of resources to adequately address those factors.
- Purpose of a CHNA – Why Conduct One?
 - Determine health-related trends and issues of the community
 - Understand / evaluate health delivery programs in place.
 - Meet Federal requirements – both local hospital and health department
 - Develop Implementation Plan strategies to address unmet health needs (4-6 weeks after Town Hall)

11

II. CHNA Written Report Documentation – Table of Contents

- A description of the community served
- A description of the CHNA process
- The identity of any and all organizations and third parties which collaborated to assist with the CHNA
- A description of how the organization considered the input of persons representing the community (e.g., *through meetings, focus groups, interviews, etc.*), who those persons are, and their qualifications
- A prioritized description of all of the community needs identified by the CHNA.
- A description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA

12

III. Review Current County Health Status: Secondary Data by 10 Tab Categories & State Rankings

Trends: Good Same Poor

Health Indicators - Secondary Research
TAB 1. Demographic Profile
TAB 2. Economic Profile
TAB 3. Educational Profile
TAB 4. Maternal and Infant Health Profile
TAB 5. Hospital / Provider Profile
TAB 6. Behavioral / Mental Health Profile
TAB 7. High-Risk Indicators & Factors
TAB 8. Uninsured Profile
TAB 9. Mortality Profile
TAB 10. Preventative Quality Measures

13

14

IV. Collect Community Health Perspectives Thoughts/Opinions?

- 1) **Today:** What are the strengths of our community that contribute to health? (*White Card*)
- 2) **Today:** Are there healthcare services in your community/neighborhood that you feel need to be improved and/or changed? (*Color Card*)
- 3) **Tomorrow:** What is occurring or might occur that would affect the "health of our community"?

Data & Benchmarks Review

Community health assessments typically use both primary and secondary data to characterize the health of the community:

- **Primary data** are collected first-hand through surveys, listening sessions, interviews, and observations.
- **Secondary data** are collected by another entity or for another purpose.
- **Indicators** are secondary data that have been analyzed and can be used to compare rates or trends of priority community health outcomes and determinants.

Data and indicator analyses provide descriptive information on demographic and socioeconomic characteristics; they can be used to monitor progress and determine whether actions have the desired effect. They also characterize important parts of health status and health determinants, such as behavior, social and physical environments, and healthcare use.

Community health assessment indicators should be.

- Methodologically sound (valid, reliable, and collected over time)
- Feasible (available or collectable)
- Meaningful (relevant, actionable, and ideally, linked to evidence-based interventions)
- Important (linked to significant disease burden or disparity in the target community)

Jurisdictions should consider using data and indicators for the smallest geographic locations possible (e.g., county-, census block-, or zip code-level data), to enhance the identification of local assets and gaps.

Local reporting (County specific) sources of community-health level indicators:

CHNA Detail Sources
Quick Facts - Business
Centers for Medicare and Medicaid Services
CMS Hospital Compare
County Health Rankings
Quick Facts - Geography
Kansas Health Matters
Kansas Hospital Association (KHA)
Quick Facts - People
U.S. Department of Agriculture - Food Environment Atlas
U.S. Center for Disease Control and Prevention

Sources of community-health level indicators:

- [County Health Rankings and Roadmaps](#)
The annual Rankings measure vital health factors, including high school graduation rates, obesity, smoking, unemployment, access to healthy foods, the quality of air and water, income inequality, and teen births in nearly every county in America. They provide a snapshot of how health is influenced by where we live, learn, work and play.
- [Prevention Status Reports \(PSRs\)](#)
The PSRs highlight—for all 50 states and the District of Columbia—the status of public health policies and practices designed to prevent or reduce important public health problems.
- [Behavioral Risk Factor Surveillance System](#)
The world's largest, ongoing telephone health survey system, tracking health conditions and risk behaviors in the United States yearly since 1984. Data is collected monthly in all 50 states, the District of Columbia, Puerto Rico, the US Virgin Islands, and Guam.
- The [Selected Metropolitan/ Micropolitan Area Risk Trends](#) project was an outgrowth of BRFSS from the increasing number of respondents who made it possible to produce prevalence estimates for smaller statistical areas.
- [CDC Wonder](#) Databases using a rich ad-hoc query system for the analysis of public health data. Reports and other query systems are also available.
- [Center for Applied Research and Engagement Systems external icon](#)
Create customized interactive maps from a wide range of economic, demographic, physical and cultural data. Access a suite of analysis tools and maps for specialized topics.
- [Community Commons external icon](#)
Interactive mapping, networking, and learning utility for the broad-based healthy, sustainable, and livable communities' movement.
- [Dartmouth Atlas of Health Care external icon](#)
Documented variations in how medical resources are distributed and used in the United States. Medicare data used to provide information and analysis about national, regional, and local markets, as well as hospitals and their affiliated physicians.
- [Disability and Health Data System](#)
Interactive system that quickly helps translate state-level, disability-specific data into valuable public health information.
- [Heart Disease and Stroke Prevention's Data Trends & Maps](#)
View health indicators related to heart disease and stroke prevention by location or health indicator.
- [National Health Indicators Warehouse external icon](#)
Indicators categorized by topic, geography, and initiative.
- [US Census Bureau external icon](#)
Key source for population, housing, economic, and geographic information.
- [US Food Environment Atlas external icon](#)
Assembled statistics on food environment indicators to stimulate research on the determinants of food choices and diet quality, and to provide a spatial overview of a community's ability to access healthy food and its success in doing so.
- [Centers for Medicare & Medicaid Services Research and Data Clearinghouse external icon](#)
Research, statistics, data, and systems.
- [Environmental Public Health Tracking Network](#)
System of integrated health, exposure, and hazard information and data from a variety of national, state, and city sources.
- [Health Research and Services Administration Data Warehouse external icon](#)
Research, statistics, data, and systems.
- [Healthy People 2030 Leading Health Indicators external icon](#)
Twenty-six leading health indicators are organized under 12 topics.
- [Kids Count external icon](#)
Profiles the status of children on a national and state-by-state basis and ranks states on 10 measures of well-being; includes a [mobile site external icon](#).
- [National Center for Health Statistics](#)
Statistical information to guide actions and policies.
- [Pregnancy Risk Assessment and Monitoring System](#)
State-specific, population-based data on maternal attitudes and experiences before, during, and shortly after pregnancy.
- [Web-based Injury Statistics Query and Reporting System \(WISQARS\)](#)
Interactive database system with customized reports of injury-related data.
- [Youth Risk Behavior Surveillance System](#)
Monitors six types of health-risk behaviors that contribute to the leading causes of death and disability among youth and adults.

II. Methodology

d) Community Profile (A Description of Community Served)

Davis County, IA Community Profile

Davis County is a [county](#) located in the [U.S. state](#) of [Iowa](#). As of the [2020 census](#), the population was 9,110.^[2] The [county seat](#) is [Bloomfield](#).^[3]

Davis County is included in the [Ottumwa, IA Micropolitan Statistical Area](#).

History[

Davis County was named in honor of [Garrett Davis](#), a Congressman from Kentucky from March 4, 1839, until March 3, 1847, and later a US Senator from Kentucky.^{[4][5]}

Geography[

According to the [U.S. Census Bureau](#), the county has a total area of 505 square miles (1,310 km²), of which 502 square miles (1,300 km²) is land and 2.7 square miles (7.0 km²) (0.5%) is water.^[6]

Major highways

- [63 U.S. Highway 63](#)
- [2 Iowa Highway 2](#)
- [202 Iowa Highway 202](#)

Schools

Davis County Community School District is a public school district located in BLOOMFIELD, IA. It has 1,293 students in grades PK, K-12 with a student-teacher ratio of 14 to 1. According to state test scores, 59% of students are at least proficient in math and 63% in reading.

III. Community Health Status

[VVV Consultants LLC]

III. Community Health Status

a) Historical Health Statistics- Secondary Research

Health Status Profile

This section of the CHNA reviews published quantitative community health indicators from public health sources and results of community primary research. To produce this profile, VVV Consultants LLC staff analyzed & trended data from multiple sources. This analysis focuses on a set of published health indicators organized by ten areas of focus (10 TABS), results from the 2020 RWJ County Health Rankings and conversations from Town Hall participates. Each table published reflects a Trend column, with GREEN denoting growing/high performance indicators, YELLOW denoting minimal change/average performance indicators and RED denoting declining/low performance indicators.

Note: The Robert Wood Johnson Foundation collaborates with the University of Wisconsin Population Health Institute to release annual *County Health Rankings*. As seen below, RWJ’s model uses a number of health factors to rank each county.

County Health Rankings model ©2012 UWPHI

National Research – Year 2023 RWJ Health Rankings:

#	2023 IA Rankings - 99 Counties	Definitions	Davis County	Trend	Rural SE IA Norm N=15
1	Health Outcomes		76		68
	Mortality	Length of Life	72		65
	Morbidity	Quality of Life	74		69

EMAIL #1 Request Message (Cut and Paste message bcc into lead email)

From: Veronica Fuhs / Lynn Fellingner

Date: July 27th, 2023

To: Community Leaders, Providers and Hospital Board and Staff

Subject: Update Davis County Community Health Needs Assessment

Davis County Hospital & Clinics in partnership with Davis County Public Health are working together along with other community leaders to create an update 2024 Davis County, IA Community Health Needs Assessment. Note: The goal of this assessment is to understand current health delivery and to collect up-to-date community health perceptions and ideas.

To begin this work, please find a confidential anonymous CHNA survey feedback link below. All community residents and business leaders are encouraged to take online survey by **Friday, August 25th, 2023**.

LINK: https://www.surveymonkey.com/r/CHNA2023_OnlineSurvey_DavisCoIA

In addition, please **HOLD the date** for the Town Hall meeting scheduled **Thursday, September 28th, 2023**, for dinner from **5p.m. – 6:30p.m.** Please stay on the lookout for more information to come soon.

Thank you in advance for your time and participation in this important survey! Have a great week!

If you have any questions regarding CHNA activities, please call 641 664-2145

PR#1 News Release

Local Contact: Veronica Fuhs / Lynn Fellingner

Media Release: 7/27/2023

Davis County IA: Community Health Needs Assessment to Begin

Over the next few months, **Davis County Hospital & Clinics & Davis County Public Health** will be working together along with other area community leaders to update the Davis County, IA 2024 Community Health Needs Assessment (CHNA). Today we are requesting Davis County community input regarding current healthcare delivery and unmet resident needs.

The goal of this assessment update is to understand progress from past community health needs assessments conducted in 2021, 2018 and 2015, while collecting up-to-date community health perceptions and ideas. VVV Consultants LLC, an independent research firm from Olathe, KS has been retained to conduct this countywide research.

A brief community survey has been developed to accomplish this work. <Note: The CHNA survey link can be accessed by visiting DCH hospital website and/or Facebook page. You may also utilize the QR code below for quick access.

All community residents and business leaders are encouraged to complete this online survey by **August 25th, 2023**. In addition, a CHNA Town Hall meeting to discuss the survey findings and identify unmet needs will be held on **September 28th, 2023, 5-6:30** at DCH. Thank you in advance for your time and support!

If you have any questions regarding CHNA activities, please call 641 664-2145

EMAIL #2 Request Message (Cut & Paste)

From: Veronica Fuhs / Lynn Fellingner

Date: 9/01/2023

To: Community Leaders, Providers and Hospital Board and Staff

Subject: Davis County Community Health Needs Assessment Town Hall

Davis County Hospital & Clinics in partnership with Davis County Public Health is hosting a scheduled Town Hall Meeting for the 2023 Community Health Needs Assessment (CHNA). The purpose of this meeting will be to review the community health indicators and gather feedback opinions on key community needs for Davis County, IA. This event will be held on **Thursday, September 28th, 2023 for dinner from 5:00 p.m. - 6:30 p.m. in Cafeteria C.**

All business leaders and residents are encouraged to join us for this meeting. In order to adequately prepare for this event, it is imperative all RSVP who plan to attend this meeting.

We hope you find the time to attend this important event by following the link below to complete your RSVP for September 28th. Note> Those who RSVP, will receive additional information and confirmation a few days prior to the event.

[VVV Consultants LLC]

CHNA 2024 Feedback: Davis County IA N=200

ID	Zip	Rating	Movement	c1	c2	c3	In your opinion, what are the root causes of "poor health" in our community?
1006	52584	Average	Not really changing much	ALC	DRUG		alcohol and substance abuse
1143	52537	Very Good	Not really changing much	AWARE	ACC		Lack of awareness of what is available in the community.
1113	52537	Average	Not really changing much	EDU			Lack of education for parents/caregivers
1004	52537	Good	Not really changing much	FIN	NUTR	ACC	Healthy options are too expensive for families. They can buy more 'unhealthy' food than they can buy healthy items for the same amount of money.
1180	52537	Very Good	Not really changing much	NUTR	OWN		The general population think fried foods and gravy are good for you. Do not want to listen to advice given on health.
1060	52537	Very Good	Decreasing - slipping downward	OBE	NUTR		Honestly it's obesity and sedentary lifestyles
1149		Very Good	Increasing - moving up	OBE			obesity
1033	52537	Average	Not really changing much	OTHR	ECON		Not enough hard labor
1150	52537	Very Good	Not really changing much	POV			Low income/poverty
1076	52537	Good	Not really changing much	RESO	OWN		Laziness in getting help when needed

CHNA 2024 Feedback: Davis County IA N=200

ID	Zip	Rating	Movement	c1	c2	c3	Access to care is vital. Are there enough providers / staff available at the right times to care for you and our community?
1136	63546	Good	Not really changing much	ACC	SPEC	SERV	Much less access to specialty services now
1183	52537	Average	Decreasing - slipping downward	CLIN	ACC		Need a Quick Care
1099	52537	Good	Not really changing much	CLIN	HRS		Clinic hours not available for a working man. Need to be open after 5p or a weekend. Or get to working before 8a!
1059	52537	Average	Decreasing - slipping downward	CLIN	HRS		Need to have a walk-in clinic later in evening and weekends
1016	52537	Average	Decreasing - slipping downward	CLIN	SCH	HRS	Clinic doesn't see patients from primary care standpoint between 8-4. To not schedule after 4 PM doesn't work for any working adult or family
1125	52537	Very Good	Not really changing much	DENT	DOCS	SPEC	No dentist, not enough medical doctors and specialists
1031	52537	Poor	Decreasing - slipping downward	DOCS	ACC		We need a dr on duty 24/7
1188	52552	Good	Increasing - moving up	DOCS	CLIN	FP	more doctors in the clinic for primary care
1035	52537	Average	Not really changing much	DOCS	EMER		Drs that can take care of more than just minor emergencies
1018	52537	Average	Decreasing - slipping downward	DOCS	SCH	CLIN	COULD NEVER GET IN TO SEE PROVIDER ON A SAME DAY APPOINTMENT. NO WALK IN CLINIC AVAILABLE
1159	52560	Very Good	Not really changing much	DOCS	SCH		losing two providers is going to affect our patients getting appointments
1077	52537	Good	Decreasing - slipping downward	DOCS	STFF	SCH	Not enough providers to staff scheduled appointments.
1085		Good	Increasing - moving up	DOCS	WAIT		Doctor office wait can be long
1041	52560	Good	Not really changing much	DOCS			could use more providers
1177	52537	Average	Decreasing - slipping downward	DOCS			This hospital is bleeding providers and patients.
1171	52537	Good	Decreasing - slipping downward	DOCS	HRS	CLIN	Need to be able to see a doctor on weekends.
1132	52537	Average	Decreasing - slipping downward	EMS	SCH		Insufficiently staffed EMTs to get a family member to St. Luke's in a timely manner
1049	52552	Poor	Decreasing - slipping downward	ENT	SERV	SCH	Months to see ENT at hospital. no other services really available but walk in type clinic appointments for my cold
1169	52537	Average	Not really changing much	FP	DOCS	SCH	Primary care physicians that patients can see in a timely manner, meaning it not take 3 weeks to see a provider.
1036	52560	Average	Decreasing - slipping downward	FP	SCH		Hard to get into primary care person . Sometimes can't get in for a few days when sick and need appointment quickly .
1150	52537	Very Good	Not really changing much	FP	SERV	SPEC	Primary care is good, There is a need to expand specialty services offered
1057	52537	Good	Not really changing much	FP	SPEC	DOCS	Need more primary care providers and specialists available.
1091	52537	Good	Decreasing - slipping downward	FP	WAIT	SCH	Need more access to primary care providers. Have to wait too long for an appointment.
1178	52537	Good	Decreasing - slipping downward	HRS	ACC	CLIN	NO I GET OFF WORK AT 5 AND ALL OFFICES CLOSE AT 5
1062	52537	Good	Decreasing - slipping downward	HRS	CLIN	EMER	need longer clinic hours and a walk in clinic to alleviate the ER being used as a clinic, need rheumatologist, general surgeon, and more primary care physicians
1075		Very Good	Not really changing much	HRS	CLIN	EMER	need to have more after hours or a walk in clinic on saturday mornings for those who need care, but not emergency care
1011	52537	Poor	Decreasing - slipping downward	HRS	CLIN		not open late enough or have walk in clinic hours
1012	52537	Good	Increasing - moving up	HRS	SCH	EMER	It's only during business hours, there are no evening or weekend hours available for appointments or walk-ins. You have to go to the emergency room which costs too much.
1069	52560	Average	Decreasing - slipping downward	HRS	TRAV	EMER	Weekend clinics would be beneficial along with actual walk in clinics, many travel to other communities when the need arises, or present to the ER when issues isn't an emergent issue due to the lack of care after your typical work day or on weekends
1113	52537	Average	Not really changing much	MH	DOCS		Mental health providers
1079	52537	Very Good	Decreasing - slipping downward	MH	SUR	OBG	There is limited availability of mental health services, and limited surgery options, no obstetrics available
1148		Average	Decreasing - slipping downward	MH	SUR		We need mental health services. We need a general surgeon.
1101	52537	Good	Not really changing much	MRKT	AWARE		Since there was no area for comments, I am using this section. I think there should be more direct advertising of services instead of TV ads. Mail box literature. Not everyone reads the newspaper or Shopper.
1039	52552	Good		NO			Don't know
1106	52537	Average	Decreasing - slipping downward	NURSE	SPEC	TRAN	Nurse shortage, access to medical specialists, transportation if having to travel outside community for care
1103	52537	Very Good	Not really changing much	QUAL	STFF	RET	It seems even if we are short of help at times our healthcare teams strive to do their best to accommodate the community, it can be a challenge and stressful at times. Also to find healthcare workers to hire at times.
1118	52537	Good	Increasing - moving up	QUAL			as far as I know
1033	52537	Average	Not really changing much	REF	RURAL		I guess I am just referring to the limitations small hospitals have
1112	52537	Average	Decreasing - slipping downward	RET	ADMIN	APP	We can't keep healthcare workers. We spend more money remodeling our hospital than paying our healthcare employees who deserved it.
1102	52537	Good	Decreasing - slipping downward	RHE			Rheumatologist
1157	52537	Good	Not really changing much	SCH	ACC		More times than not there are not same day appts available anymore.
1143	52537	Very Good	Not really changing much	SCH	CLIN		sometimes hard to get a clinic appointment
1147	52537	Good	Not really changing much	SCH	CLIN		Very difficult to get an appointment in clinic
1092	52537	Good	Decreasing - slipping downward	SCH	DOCS	FP	I have had difficulty scheduling an appointment with a provider in a timely fashion. There seem to los of providers only working part time. We have plenty of patients seeking primary care and find themselves having to wait because of all this part time care.
1200	52537	Very Good	Decreasing - slipping downward	SCH	EMER	ACC	There are still times that people are being told that there is no available appointments for the day leaving them to have to make an ER visit just to get treatment
1094	52537	Good	Decreasing - slipping downward	SCH	HRS	CLIN	When I called for an appointment early in the day and was informed there were no openings with anyone that day and only 1 available opening the next day with ANYONE (not even who I consider to be my dr.) I found that disturbing!!
1044	52537	Good	Not really changing much	SCH	WALK	HRS	need more same day appointments, extended hours, or walk in clinic
1064	52537	Average	Decreasing - slipping downward	SCH			Can never get same day appointments.

CHNA 2024 Feedback: Davis County IA N=200

ID	Zip	Rating	Movement	c1	c2	c3	Access to care is vital. Are there enough providers / staff available at the right times to care for you and our community?
1184	52552	Average	Decreasing - slipping downward	SCH			Hard to get a day of appointments
1004	52537	Good	Not really changing much	SCH			Hard to get an appointment.
1142	52537	Good	Decreasing - slipping downward	SPEC	DOCS	STFF	Specialty providers are leaving the community and the providers staying do not have the appropriate support staff.
1149		Very Good	Increasing - moving up	STFF	RET		there is always room for more workers.
1056	52584	Good	Not really changing much	SUR	RHE	OBG	Surgeon, Rheumatologist, OB/Gyn, Mental Health, Substance Abuse, Care Giver health/ support, Dental, Cardiology, Chronic Condition wellness planning, Nutritional health for Diabetes, Sports Medicine, Dermatolgy,
1126	52537	Average	Decreasing - slipping downward	WAIT	SCH	ACC	NO, this is the main reason why we go elsewhere for care most of the time. I called for my daughters injured arm and was told 2 weeks before we could be seen. Another time I was sick and was told 4 weeks to get in.
1172		Average	Decreasing - slipping downward	WAIT	SCH	CLIN	Long wait times for appointments. I go to walk in clinic in ottumwa if needed since i could not get into see provider in clinic

CHNA 2024 Feedback: Davis County IA N=200

ID	Zip	Rating	Movement	c1	c2	c3	What "new" community health programs should be created to meet current community health needs?
1094	52537	Good	Decreasing - slipping downward	ACC	FP		New community health care programs sound nice, but in my opinion these should be established AFTER there is no problem being able to access general daily primary health care.
1149		Very Good	Increasing - moving up	ACC	SERV		We are losing one of our community home delivered meals options and not many are able to get to the meal site to eat. Its a concern.
1079	52537	Very Good	Decreasing - slipping downward	AWARE	COMM		I don't know everything that's currently available, so maybe communication is an issue
1082	52572	Average	Not really changing much	CLIN	ACC	HRS	Davis Co. needs a walk-in. I can rarely be seen at a clinic the same day I call with a need to be seen.
1178	52537	Good	Decreasing - slipping downward	CLIN	EDU		FREE CLINICS INFORMATIVE CLINCS TO HELP TEACH PEOPLE HEALTH TIPS LIFE COACHING
1012	52537	Good	Increasing - moving up	CLIN	HRS		a walk-in clinic for weekends and evenings
1034	52552	Good	Not really changing much	CLIN	PHAR		Walk in clinic option for minor problems needing a prescription
1142	52537	Good	Decreasing - slipping downward	DENT	CARD	ONC	Dental services, cardiology services and oncology services.
1009	52537	Average	Not really changing much	DOH	ACC		This is a written response on a paper survey in regards to #8&9. "Public Health Service is OUTSTANDING! Thank-you for always being available and willing to help".
1172		Average	Decreasing - slipping downward	DRUG	MH		Need to focus on addiction and mental health
1031	52537	Poor	Decreasing - slipping downward	EDU	NUTR		Education about nutritionally dense food
1054	50123	Very Good	Increasing - moving up	EDU	POV	SPRT	EDUCATION PROGRAMS FOR LOW INCOME FAMILIES
1018	52537	Average	Decreasing - slipping downward	FAM			NEED FAMILY PLANNING WHICH IS MORE THAN JUST BIRTH CONTROL
1069	52560	Average	Decreasing - slipping downward	FEM	FP	MH	Women, men and children health programs, along with mental health programs for all ages.
1074	52537	Very Good	Not really changing much	FIT	NUTR		Exercise programs, nutrition programs
1159	52560	Very Good	Not really changing much	FIT	PREV	NUTR	Heath/Wellness - exercise area
1045	52537	Average	Not really changing much	FIT	REC	EQUIP	Exercise, physical activity center where you can walk in and learn about the equipment and how to use it.
1150	52537	Very Good	Not really changing much	HRS	ACC		After hours access to fitness centers. Have a wonderful facility but has slightly limited hours. Would be great to have available 24/7
1052	52537	Very Good	Not really changing much	MH	COUN	FINA	Mental health counseling. Affordability and availability.
1148		Average	Decreasing - slipping downward	MH	COUN	PREV	Mental health and counseling services. Disease prevention. Healthy eating and exercise education and programs.
1002		Good	Not really changing much	MH	DENT	OPHT	Mental Health, Dental, Vision.
1056	52584	Good	Not really changing much	MH	DIAB	NUTR	MENTAL HEALTH SERVICES that are accessible, Diabetic Education, Nutritional planning for young families, New Mothers support or family assistance (how to be good parent, meal planning, education for youth before school age)
1125	52537	Very Good	Not really changing much	MH	DIAB	ONC	Access to mental health services. Diabetes program that insurance covers, oncology services like Centerville.
1027	52537	Good	Not really changing much	MH	DRUG	RESO	Easier access to mental health and substance abuse treatment. There should be more resources for women/ children dealing with abuse
1008	52537	Good	Not really changing much	MH	FEM	DRUG	mental health focus area, women's health, teen health, substance abuse.
1041	52560	Good	Not really changing much	MH	OBG	SERV	more mental health services and ob/gyn services
1109	52537	Good	Not really changing much	MH	PEDS	SERV	mental health specialist, pediatric
1147	52537	Good	Not really changing much	MH	PEDS		More Mental Health for adults and pediatrics
1113	52537	Average	Not really changing much	MH	PSY		Mental health and psychology
1112	52537	Average	Decreasing - slipping downward	MH	RESO	SPRT	Mental Health is huge and we need to find solutions
1167		Good	Increasing - moving up	MH	SPRT	DRUG	Mental health support addiction support
1184	52552	Average	Decreasing - slipping downward	MH			Behavior health
1124		Average	Not really changing much	MH			Mental Health
1044	52537	Good	Not really changing much	MH			Mental Health
1140	52501	Very Good	Increasing - moving up	MH			Mental health
1177	52537	Average	Decreasing - slipping downward	MH			mental health
1043	52537	Very Good	Not really changing much	MH			Mental Health
1188	52552	Good	Increasing - moving up	MH			mental health
1091	52537	Good	Decreasing - slipping downward	MH			Mental health care
1092	52537	Good	Decreasing - slipping downward	MH			Mental health care
1057	52537	Good	Not really changing much	MH			Mental health care.
1133	52537	Average	Decreasing - slipping downward	MH			mental health for all ages
1143	52537	Very Good	Not really changing much	MH			Mental health is a major problem that continues to cause issues in health care
1121	52537	Average	Not really changing much	MH			More with mental health
1039	52552	Good		NO			Don't know
1068	52570	Very Good	Not really changing much	NO			none that I can think of.
1077	52537	Good	Decreasing - slipping downward	NUTR	EDU		Good nutrition classes.
1162	52552	Good	Not really changing much	NUTR	FIT	EDU	Healthier food options; exercise programs
1103	52537	Very Good	Not really changing much	NUTR	SEN	MH	Nutritional meals and delivery for our senior population. Easy Home exercise programs for them as well. Mental health for all ages not just elderly. State C-dak workers for low income individuals seem to be almost be non existent in our community.
1136	63546	Good	Not really changing much	OBE			We don't need a program, people just need to lose weight.
1132	52537	Average	Decreasing - slipping downward	OBG			OB/GYN
1033	52537	Average	Not really changing much	OTHR			People should sweat more
1183	52537	Average	Decreasing - slipping downward	OTHR			Quick Care
1095	52537	Good	Increasing - moving up	PEDS	RESO	AWARE	Pediatric mental health resources Reducing cost for healthcare services (labs, X-rays, and overall visit charges) Increase awareness of adolescent health need and significance of continuing wellness visits and vaccinations past early childhood
1157	52537	Good	Not really changing much	PREV	FIT	NUTR	Health/Fitness/Diet/Exercise/Wellness
1169	52537	Average	Not really changing much	PREV			Wellness program
1152	52544	Very Good	Decreasing - slipping downward	QUAL			No new ones need created, we need to improve the current ones.
1035	52537	Average	Not really changing much	REF			The Bloomfield Community would be glad to not need to be sent to other hospitals for health care.
1102	52537	Good	Decreasing - slipping downward	RHE			Rheumatologist

CHNA 2024 Feedback: Davis County IA N=200

ID	Zip	Rating	Movement	c1	c2	c3	What "new" community health programs should be created to meet current community health needs?
1118	52537	Good	Increasing - moving up	SEN	STFF	TRAN	more options for meal delivery for our senior population. there seems to be a shortage of c-dak workers that qualify for help from the state. transportation to nearby communities are expensive for our elderly as well.
1049	52552	Poor	Decreasing - slipping downward	SPEC	HRS	ACC	Specialty Clinics Bring back school physicals that were free only can see a doc 830-4 M-F not very easy to access
1155	52537	Good	Increasing - moving up	SPRT	RESO	COMM	a dedicated navigator to help everyone in the community understand what is available locally or regionally and help them connect with services/programs.
1016	52537	Average	Decreasing - slipping downward	SPRT	RESO	QUAL	improvement in current health programs
1006	52584	Average	Not really changing much	SPRT	TEEN		AA, AL-ANON AND AL-ATEEN WEEKLY MEETINGS
1030	52537	Very Good	Increasing - moving up	SUR	ACC		surgeon in hospital or access to one quickly
1075		Very Good	Not really changing much	TRAN			healthcare taxi
1062	52537	Good	Decreasing - slipping downward	URL	RHE	DIAL	urology, rheumatology, dialysis

Let Your Voice Be Heard!

Davis County Hospital and Clinics (DCHC) and Davis County Public Health have begun an update of the 2024 Davis County, IA Community Health Needs Assessment (CHNA). To begin this work, a short online survey has been created to evaluate community health unmet needs and delivery. NOTE: Please consider your answers to the survey questions as it relates to ALL healthcare services in our community, including but not limited to our local hospital.

While your participation is voluntary and confidential, all community input is encouraged and valued. Thank you for your immediate attention! Cut-off for CHNA survey is set for Thursday Noon 8/31/23.

1. In your opinion, how would you rate the "Overall Quality" of healthcare delivery in our community?

- Very Good Good Average Poor Very Poor

2. When considering "overall community health quality", is it ...

- Increasing - moving up Not really changing much Decreasing - slipping downward

Please specify why.

3. In your own words, what is the general perception of healthcare delivery for our community (i.e. hospitals, doctors, public health, etc.)? Be Specific.

4. In your opinion, are there healthcare services in our community/your neighborhood that you feel need to be improved, worked on and/or changed? (Please be specific)

5. From our past CHNA, a number of health needs were identified as priorities. Are any of these an ongoing problem for our community? Please select top three.

2024 Davis County IA Community Health Needs Assessment

Davis County Hospital and Clinics (DCHC) and Davis County Public Health have begun an update of the 2024 Davis County, IA Community Health Needs Assessment (CHNA). To begin this work, a short online survey has been created to evaluate community health unmet needs and delivery.

NOTE: Please consider your answers to the survey questions as it relates to ALL healthcare services in our community, including but not limited to our local hospital. While your participation is voluntary and confidential, all community input is encouraged and valued. Thank you for your immediate attention! Cut-off for CHNA survey is set for Friday 8/25/2023.

1. In your opinion, how would you rate the “Overall Quality” of healthcare delivery in your community?

Very Good Good Average Poor Very Poor

2. When considering “overall community health quality”, is it ?? Check ONE

Increasing – moving up Not really changing much Decreasing – slipping downward.

Please specify why ?

3. In your own words, what is the general perception of healthcare delivery for our community (i.e., hospitals, doctors, public health, etc.)? (Please be specific with answer)

4. In your opinion, are there healthcare services in our community/ your neighborhood that you feel need to be improved, worked on and/or changed? (Please be specific)

5. From our past CHNA, a number of health needs were identified as priorities. Are there any of these an “ongoing problem” for our community? (Check select top three.)
